TQC LEADERSHIP ROADMAP

How-To Guide

For superintendents, coaches and mentors, MASA staff, and program administrators. Pictures show sample data. November 13, 2026.

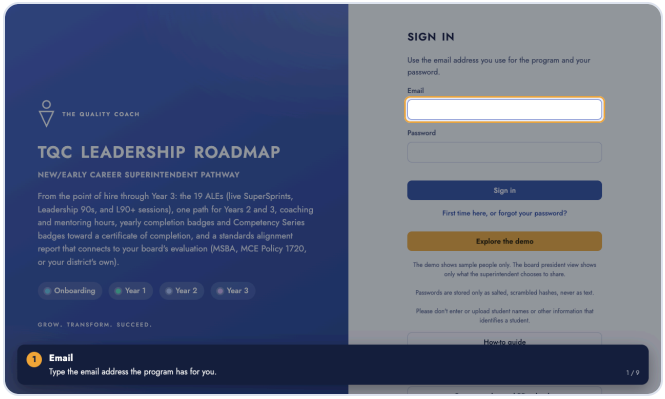

Videos: https://jwillisdunklin.github.io/tqc-roadmap-help/ · In the app, click **Help** at the top of any screen.

Getting started

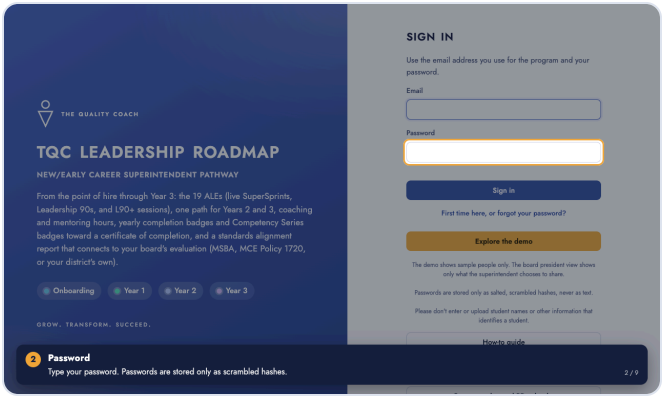

Sign in for the first time

1. On the sign-in page, click **First time here, or forgot your password?**
2. Type the email address the program has for you and click **Email me a link**.
3. Open the email (check spam if it isn't there in a few minutes) and click the link. It works once and lasts 24 hours.
4. Choose a password with at least 10 characters, including a letter and a number, type it twice, and click **Set password and sign in**.

▶ Video: Signing in (48 sec) · https://jwillisdunklin.github.io/tqc-roadmap-help/videos/signing-in.mp4

Email: Type the email address the program has for you.

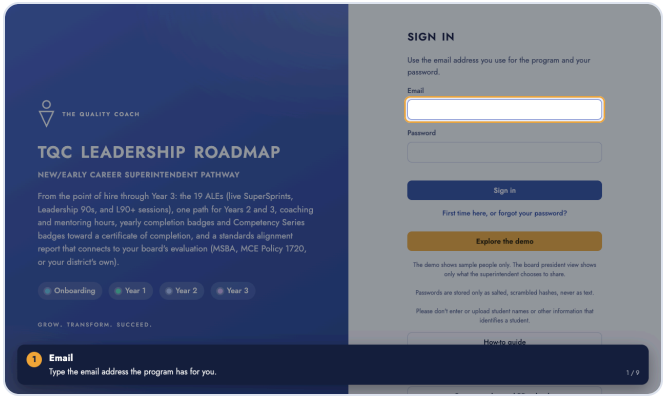

Password: Type your password. Passwords are stored only as scrambled hashes.

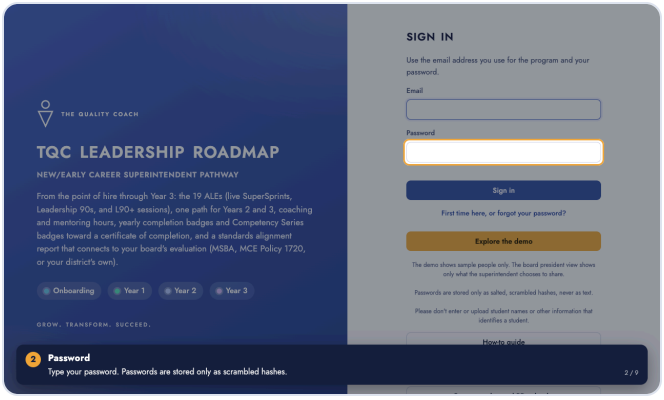

Sign in

1. Type your email address and password and click **Sign in**.
2. Five wrong tries lock the email for 15 minutes. If you forgot your password, use **First time here, or forgot your password?** to get a new link.

▶ Video: Signing in (48 sec) · https://jwillisdunklin.github.io/tqc-roadmap-help/videos/signing-in.mp4

Email: Type the email address the program has for you.

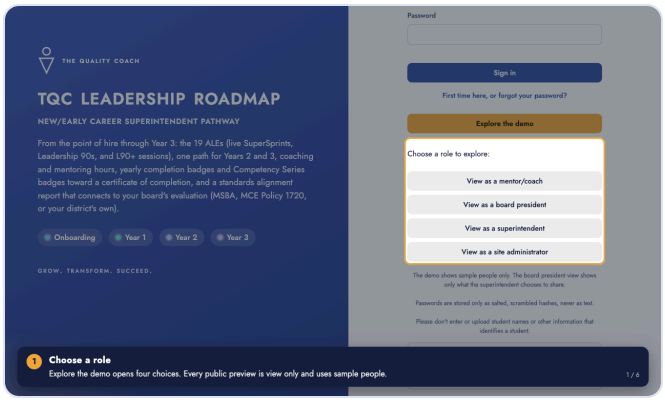

Password: Type your password. Passwords are stored only as scrambled hashes.

Try the demo

1. **Explore the demo** opens four choices: **View as a mentor/coach**, **View as a board president**, **View as a superintendent**, and **View as a site administrator**. Use the demo role selector to switch; mentor/coach offers separate coach and mentor views. All are view only. Board president is a sample preview, not a board sign-in.
2. Demo superintendent logins sign in with their own email and the shared demo password. They act as their own sample superintendent and can click everything: enroll, mark sessions complete, turn in work.
3. The demo never shows real people.

▶ Video: Explore the demo by role (33 sec) · https://jwillisdunklin.github.io/tqc-roadmap-help/videos/demo-roles.mp4

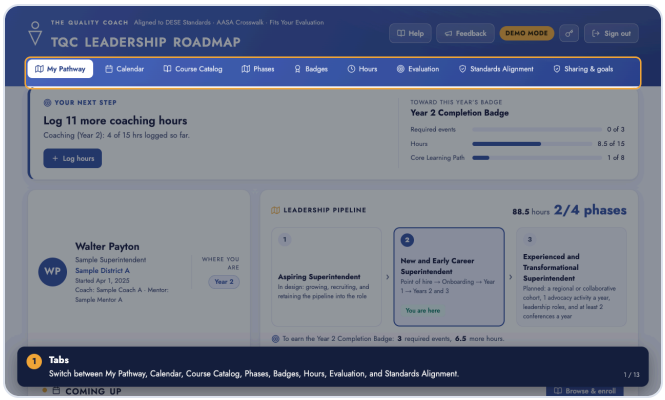

Choose a role: Explore the demo opens four choices. Every public preview is view only and uses sample people.

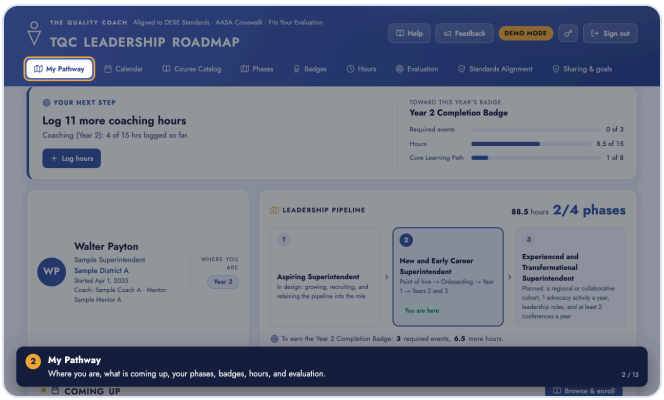

Get around: tabs, Back, Help, and Sign out

1. The tabs under the title switch between **My Pathway**, **Calendar**, **Course Catalog**, **Phases**, **Badges**, **Hours**, **Evaluation**, and **Standards Alignment**. Evaluation is private to authorized roles; mentors do not see it. On a phone the tabs are one row: swipe it sideways for more.
2. Administrators see four groups: **Program** (Roster Dashboard, Classes, People & sign-in, Import courses), **Learner view** (one superintendent's Individual Pathway, Phases, Badges, Hours, Evaluation, Standards Alignment, and Sharing), **Calendar**, and **Course Catalog**. Click a group to show its tabs on the second row.
3. **Back** (top right) goes back one screen, for example from a class page to the calendar.
4. **Help** opens this guide. On a phone, **Feedback**, **Change password**, and **Sign out** are in the ⋯ menu at the top right. **Sign out** ends your session; you stay signed in for up to 2 hours of no use otherwise (and never more than 30 days in all). If you are still signed in when you come back, the site shows **Restoring your sign-in...** while it checks.
5. The site follows your device's light or dark setting. Printed pages (certificate, proof of growth, reports) always print light.
6. While the site is working, a small note in the lower left says **Saving...** or **Loading...** (after 8 seconds, **Still saving...**). Keep the page open until it disappears; a change counts as saved only when its own message (for example **Saved.** or **Turned in.**) appears. Clicking a button twice sends it once.

► Video: Getting around (1 min 8 sec) · https://jwillisdunklin.github.io/tqc-roadmap-help/videos/getting-around.mp4

Tabs: Switch between My Pathway, Calendar, Course Catalog, Phases, Badges, Hours, Evaluation, and Standards Alignment.

My Pathway: Where you are, what is coming up, your phases, badges, hours, and evaluation.

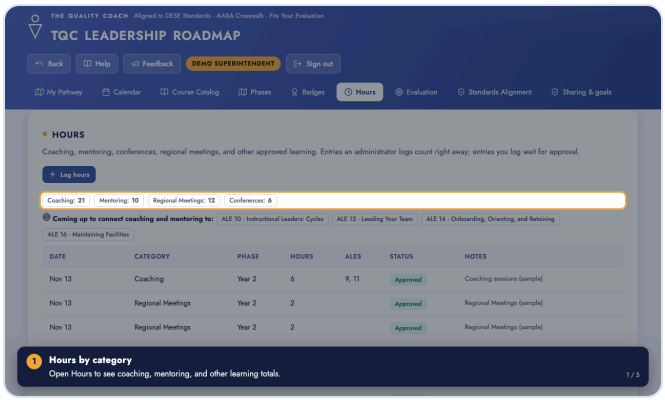

What the labels mean (ALE, L90+, LC, Evaluation 4d)

1. **ALE 6** is Authentic Learning Experience 6, one of the 19 in the Core Learning Essentials handout. The roster shows each person's next one (for example **Next: ALE 6 · Communication for Success: Driving Vision +2**).
2. **SuperSprint** (30 minutes), **Leadership 90** (90 minutes), and **L90+** (an in-person session longer than 90 minutes, usually 2.5 hours) are session formats.
3. **Standard 4** is a Missouri DESE Superintendent Standard; **LC 24** is one of its 32 Leadership Competencies.
4. **Evaluation 4d** is a performance indicator in the MSBA/DESE/MASA Superintendent Evaluation Manual that the session supports.
5. Point to a dotted-underlined label to see it spelled out. **Target met** next to an hours bar means the hours reached or went past what the phase needs; the bar stops at full.

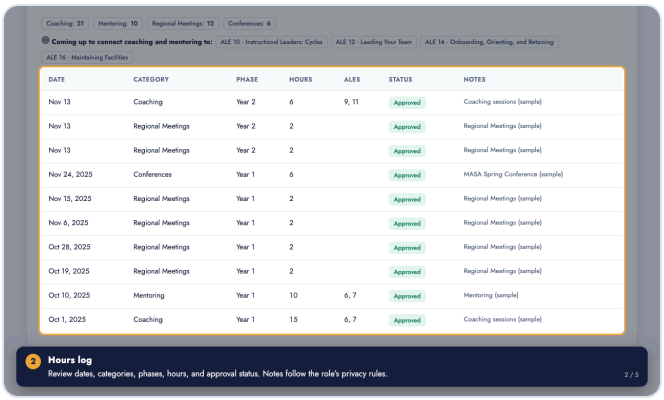

Read the Hours tab

1. Open **Hours** to see category totals and the log of dates, phases, hours, and approval status.
2. Approved hours count toward phase badges; pending hours wait for a program administrator. Notes are shown only to authorized roles.
3. **Log hours** appears only when your role can submit entries. Mentors submit Mentoring hours only; MASA staff and public demo visitors view the totals without submitting.

▶ Video: Using the Hours tab (28 sec) · https://jwillisdunklin.github.io/tqc-roadmap-help/videos/hours.mp4

Hours by category: Open Hours to see coaching, mentoring, and other learning totals.

Hours log: Review dates, categories, phases, hours, and approval status. Notes follow the role's privacy rules.

Course catalog and PD calendar

1. Open **Course catalog and PD calendar** from the sign-in page or the Course Catalog tab. Anyone can open it; it shows no one's data.
2. It lists every session with its date and time when set, whether it is virtual or in person, the Superintendent Leadership Academy, and all 19 ALEs by stage. Filter by stage or delivery, or print it.

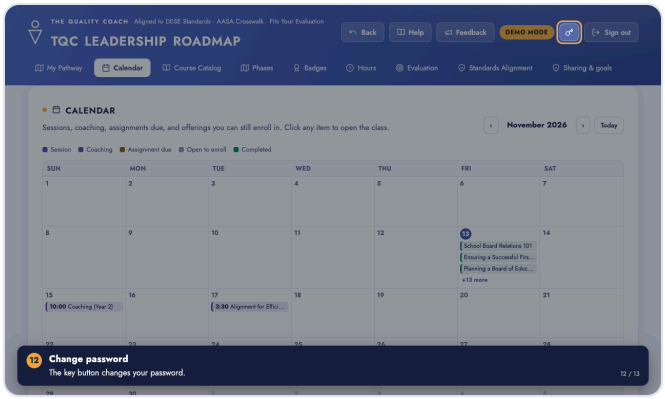

Send feedback about the site

1. Click **Feedback** at the top of any page. Rate how well the site works, say what is working and what should change, and click **Send feedback**.
2. Program administrators read it to decide what to change after the pilot.

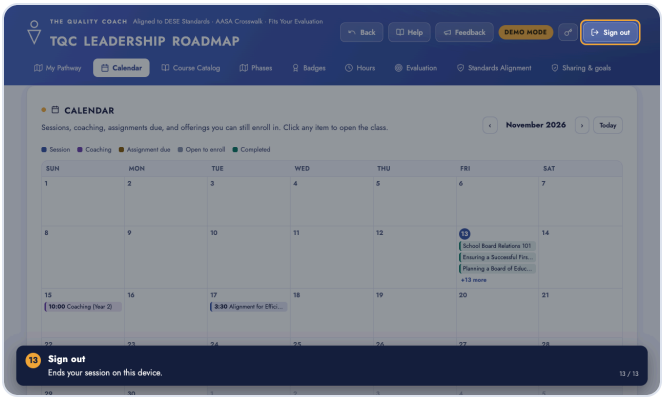

Change your password

1. Click the **key** button at the top right.
2. Type your current password and the new one twice, then click **Change password**. Any other device or browser where you were signed in is signed out.
3. Demo logins don't have their own password to change.

► Video: Getting around (1 min 8 sec) · https://jwillisdunklin.github.io/tqc-roadmap-help/videos/getting-around.mp4

Change password: The key button changes your password.

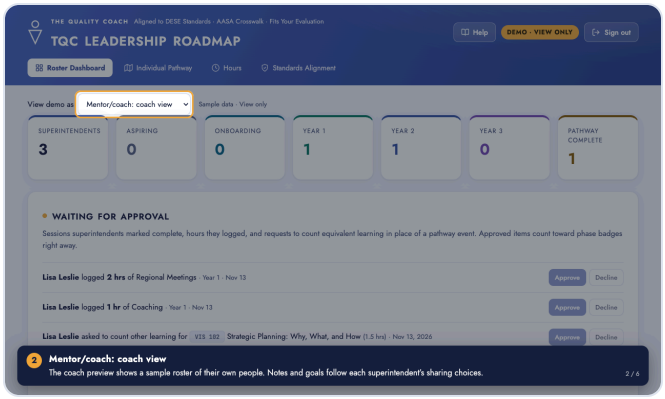

Sign out: Ends your session on this device.

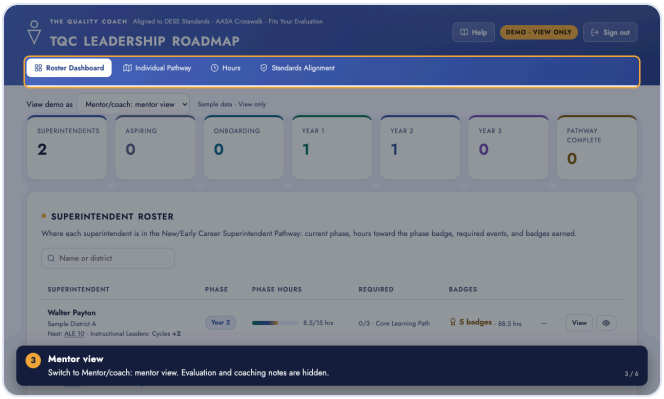

Preview the mentor and coach roles

1. Click **Explore the demo**, then **View as a mentor/coach**. The coach preview opens a sample roster, and the sample coach also teaches courses (**My classes**).
2. Use **View demo as** to switch between **Mentor/coach: coach view** and **Mentor/coach: mentor view**. Coaches see what each superintendent shares with them (by default including notes and submitted work); mentors never see coaching notes. Neither sees the evaluation.
3. In the demo your changes stay in your browser. In a real sign-in, coaches and mentors see only the people assigned to them.

► Video: Explore the demo by role (33 sec) · https://jwillisdunklin.github.io/tqc-roadmap-help/videos/demo-roles.mp4

Mentor/coach: coach view: The coach preview shows a sample roster of their own people. Notes and goals follow each superintendent's sharing choices.

Mentor view: Switch to Mentor/coach: mentor view. Evaluation and coaching notes are hidden.

Preview the board president role

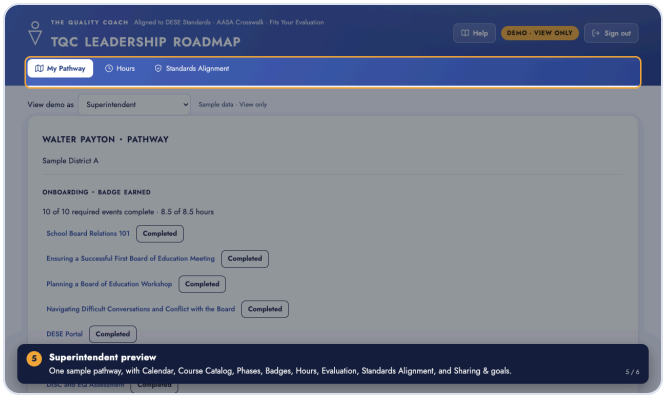

1. Choose **View as a board president** on the demo chooser, or **Board president** in **View demo as**.
2. A board president sees one page: one superintendent's completed learning by DESE standard and the goals that superintendent chose to share. There is no roster, no courses, no hours log, and no coaching notes.
3. Switch to **View as a superintendent** and change **Sharing & goals** to see the board view change.

► Video: Explore the demo by role (33 sec) · https://jwillisdunklin.github.io/tqc-roadmap-help/videos/demo-roles.mp4

Preview the superintendent role

1. Choose **View as a superintendent**, or **Superintendent** in **View demo as**.
2. The preview opens one sample person's **My Pathway**. Explore **Calendar**, **Course Catalog**, **Phases**, **Badges**, **Hours**, **Evaluation**, and **Standards Alignment**.
3. Public previews do not save changes. A separately provided demo superintendent email/password can perform practice actions on its own sample profile.

► Video: Explore the demo by role (33 sec) · https://jwillisdunklin.github.io/tqc-roadmap-help/videos/demo-roles.mp4

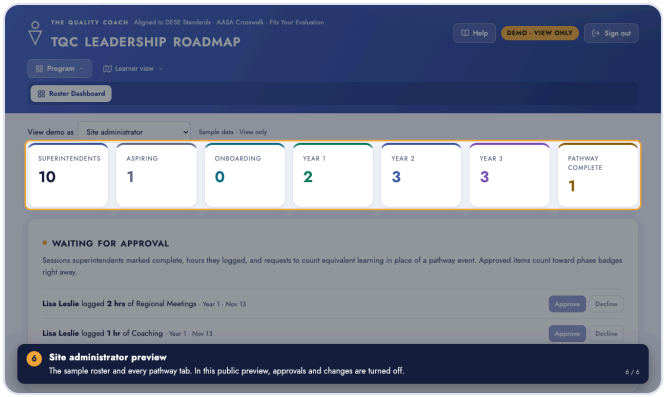

Superintendent preview: One sample pathway, with Calendar, Course Catalog, Phases, Badges, Hours, Evaluation, Standards Alignment, and Sharing & goals.

Preview the site administrator role

1. Choose **View as a site administrator**, or **Site administrator** in **View demo as**.
2. Explore the sample **Roster Dashboard**, individual pathways, and all their tabs. **People & sign-in** shows a sample list to explain account management.
3. Approvals are disabled and real accounts are never shown. Real administrators use their own sign-in for attendance, approvals, invitations, and account changes.

► Video: [Explore the demo by role](#) (33 sec) · https://jwillisdunklin.github.io/tqc-roadmap-help/videos/demo-roles.mp4

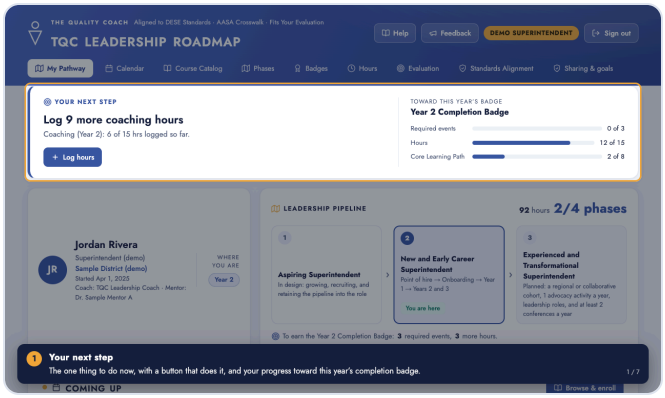

Site administrator preview: The sample roster and every pathway tab. In this public preview, approvals and changes are turned off.

For superintendents

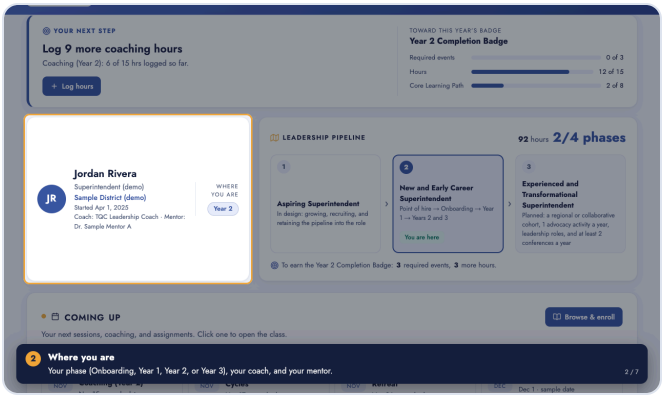

Read your pathway

1. **Your next step** at the top names the one thing to do now (for example **Mark ALE 9 complete**, **Log 6.5 more coaching hours**, or **Register for** a session) with a button that does it, and shows your progress toward this year's completion badge.
2. Below it: where you are (Onboarding, Year 1, Year 2, or Year 3), **Coming up** (your next four; **Show more** lists the rest), and your four phases in one row. Click a phase to see its events; finished events fold into **N completed**.
3. Each event shows its title, then its format and hours and the date. Click **Details** for its **ALE** number (the Authentic Learning Experiences from the Core Learning Essentials handout), code, window, DESE standard, and the evaluation performance indicators it supports.
4. At the bottom, short **Badges**, **Hours**, **Evaluation**, and **Standards Alignment** cards open those tabs.

▶ Video: Your pathway (38 sec) · https://jwillisdunklin.github.io/tqc-roadmap-help/videos/your-pathway.mp4

Your next step: The one thing to do now, with a button that does it, and your progress toward this year's completion badge.

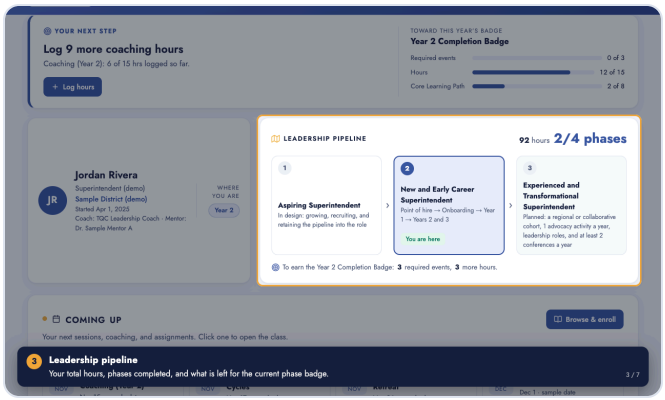

Where you are: Your phase (Onboarding, Year 1, Year 2, or Year 3), your coach, and your mentor.

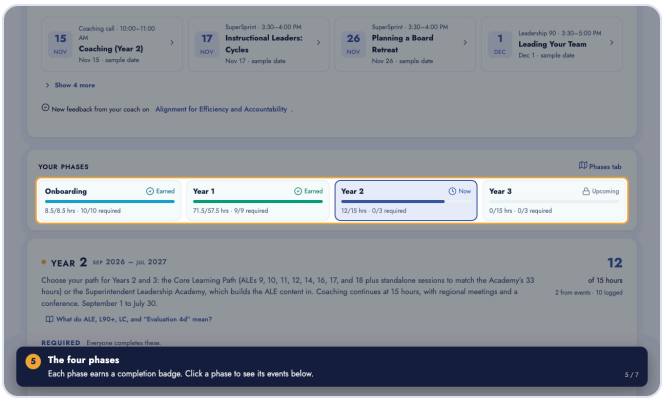

Regional meetings and conferences each year

1. Each year (Year 1, Year 2, and Year 3) you attend **4 or more regional meetings** and **at least 1 conference**: the Spring Conference, Fall Conference, AASA Conference, or Women in Leadership Summit.
2. Log each one on the **Hours** tab (category **Regional Meetings** or **Conferences**). Each entry counts once toward the yearly number, and its hours count toward the phase.
3. The event row shows how many you have (for example, **2 of 4 attended**). **Tight Times Tuesdays** is recommended, with a goal of attending at least 70% of the year's sessions; log each one under **Tight Times**.

► Video: Your pathway (38 sec) · https://jwillisdunklin.github.io/tqc-roadmap-help/videos/your-pathway.mp4

Leadership pipeline: Your total hours, phases completed, and what is left for the current phase badge.

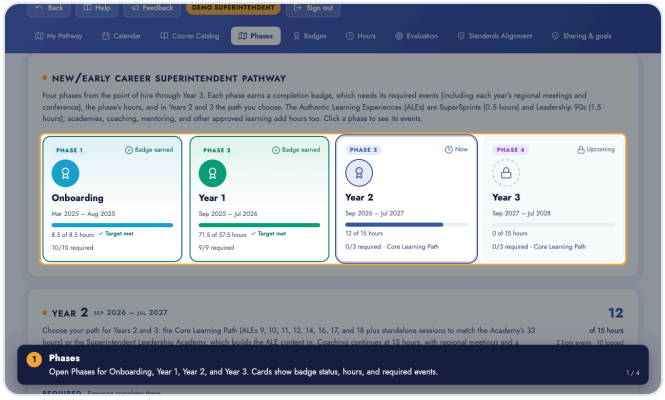

The four phases: Each phase earns a completion badge. Click a phase to see its events below.

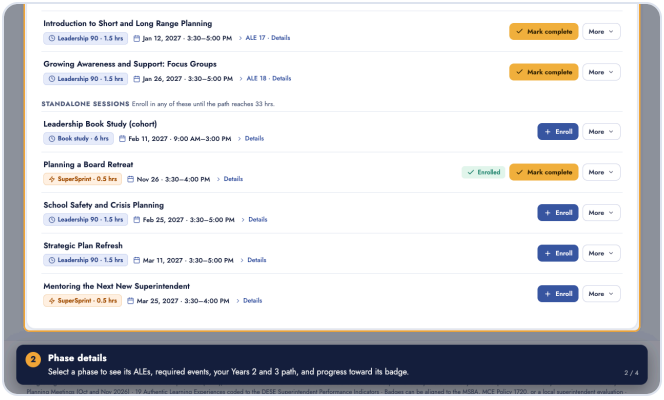

Use the Phases tab

1. Open **Phases**. The four cards show Onboarding, Year 1, Year 2, and Year 3 with earned hours, required events, and badge status.
2. Click a phase card. Its detail lists required events, the Years 2 and 3 path, and learning hours for that phase. Onboarding is 8.5 hours (ALEs 1-5, 8, and 19); Year 1 is 57.5 (the Finance Academy, ALEs 6, 7, 13, and 15, mentor, and coach).
3. Click any class title to open materials, assignments, and completion information. **Back** returns to the selected phase.

► Video: Using the Phases tab (23 sec) · https://jwillisdunklin.github.io/tqc-roadmap-help/videos/phases.mp4

Phases: Open Phases for Onboarding, Year 1, Year 2, and Year 3. Cards show badge status, hours, and required events.

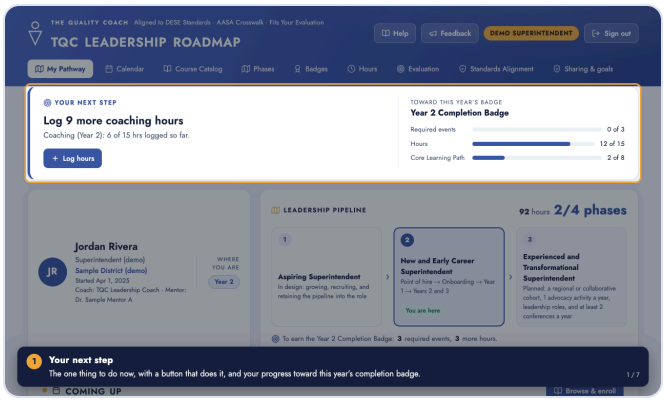

Phase details: Select a phase to see its ALEs, required events, your Years 2 and 3 path, and progress toward its badge.

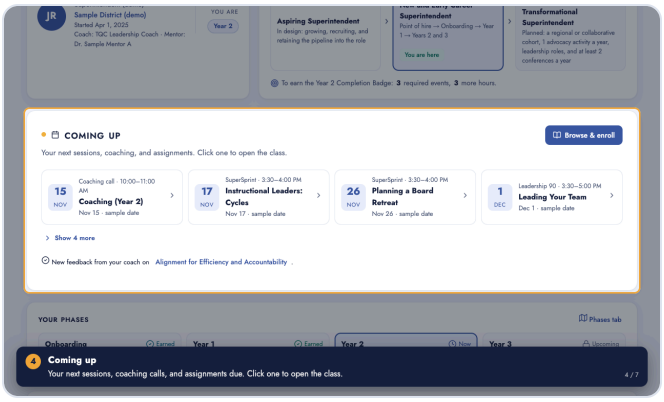

See what's coming up

1. **Coming up** (near the top of My Pathway) lists your next sessions, coaching calls, and assignments due.
2. Click any item to open that class.

▶ Video: Your pathway (38 sec) · https://jwillisdunklin.github.io/tqc-roadmap-help/videos/your-pathway.mp4

Your next step: The one thing to do now, with a button that does it, and your progress toward this year's completion badge.

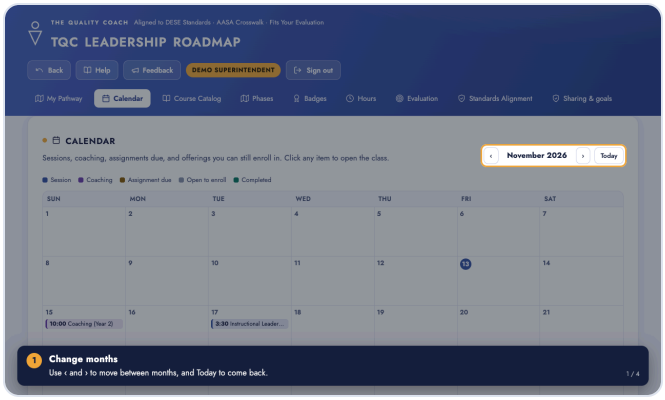

Coming up: Your next sessions, coaching calls, and assignments due. Click one to open the class.

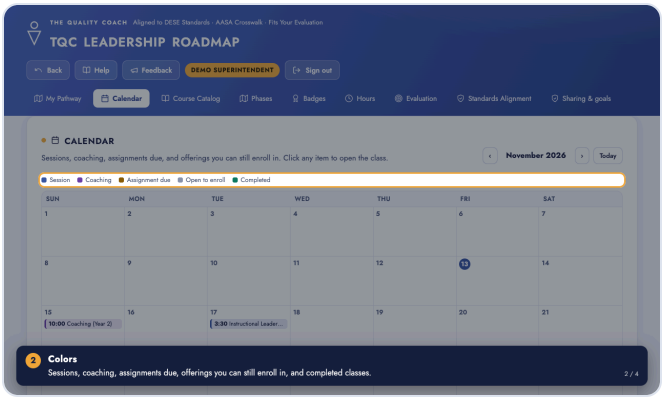

Use the calendar

1. Click the **Calendar** tab. Use **‹ ›** to change months and **Today** to come back.
2. Colors: sessions, coaching, assignments due, offerings you can still enroll in, and completed classes.
3. Click any item to open the class. A busy day shows 3 items and **+N more**; click it to see the rest.

▶ Video: Using the calendar (23 sec) · https://jwillisdunklin.github.io/tqc-roadmap-help/videos/calendar.mp4

Change months: Use ‹ and › to move between months, and Today to come back.

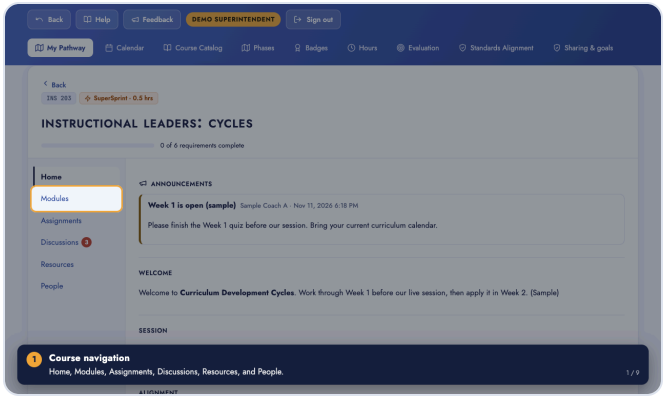

Colors: Sessions, coaching, assignments due, offerings you can still enroll in, and completed classes.

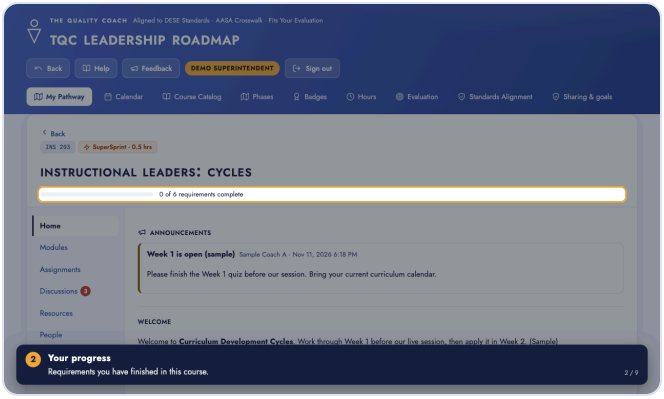

Take a course: Home, Modules, and your progress

1. Click any class title (on My Pathway, Coming up, the Calendar, or the Course Catalog). The course opens with **Home**, **Modules**, **Assignments**, **Discussions**, **Resources**, and **People** on the left.
2. **Home** has announcements, the welcome, what you'll learn, the syllabus, the session time and join link, and your instructor.
3. **Modules** lists the course by week or topic. Each item shows what it takes to finish (for example **Turn it in** or **Score at least 60%**) and a check when you're done. A locked module opens when you finish the one before it or on its date.
4. The bar at the top shows your requirements done. Videos and pages play right in the course; opening one counts only toward "View it" requirements, never as finishing the course by itself.
5. A course you opened a moment ago reopens at once and then updates itself from the program's records in the background, so dates, new items, and grades are always current.

► Video: Taking a course (48 sec) · https://jwillisdunklin.github.io/tqc-roadmap-help/videos/course-learner.mp4

Course navigation: Home, Modules, Assignments, Discussions, Resources, and People.

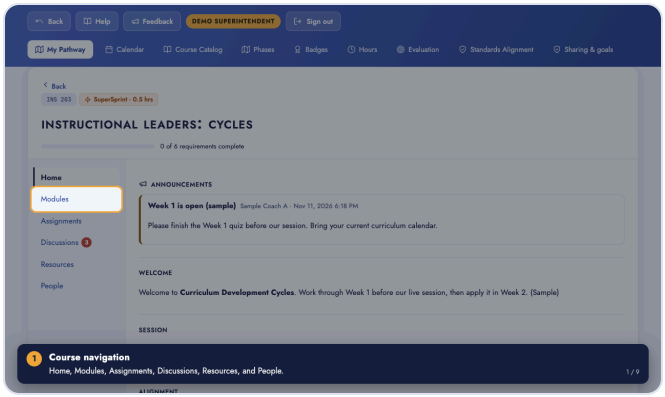

Your progress: Requirements you have finished in this course.

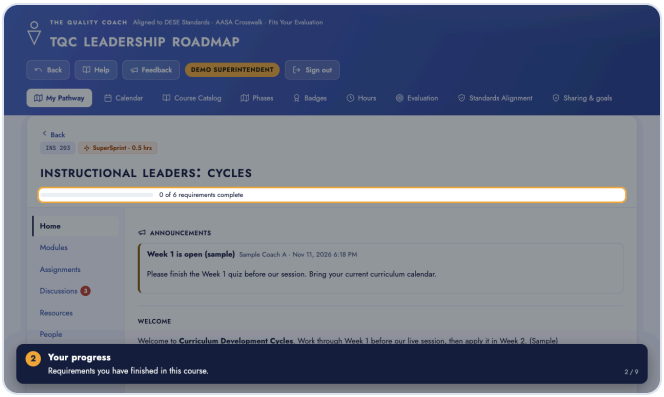

Get pathway credit for a course

1. When you finish every requirement in a course that includes real work (an assignment, a passing quiz, or a discussion post), it's sent to your program administrator to approve for your pathway hours automatically.
2. For a live session without course requirements, click **Mark complete**, choose the date, and add a short reflection.
3. Either way it shows **Waiting for approval** until an administrator confirms it. A course counts once, toward its phase, standard, and badges; course grades never go into your evaluation.

► Video: Taking a course (48 sec) · https://jwillisdunklin.github.io/tqc-roadmap-help/videos/course-learner.mp4

Course navigation: Home, Modules, Assignments, Discussions, Resources, and People.

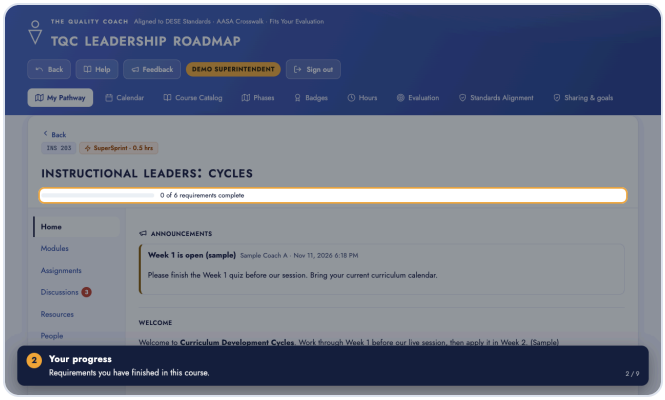

Your progress: Requirements you have finished in this course.

Turn in assignments and take quizzes

1. Open the assignment from **Modules** or **Assignments**. Read the instructions, rubric, and due date.
2. Write your response, add a link, or upload a file (PDF, Word, PowerPoint, Excel, or an image, up to 10 MB), then click **Turn in**.
3. Status shows **Submitted**, **Submitted late**, **Missing**, **Needs revision** (turn in a revision; earlier attempts are kept), or **Reviewed** with your score and feedback.
4. For a quiz, click **Start the quiz**, answer, and **Submit**. Most questions are scored at once; essay answers wait for your instructor. Your attempts and scores are listed.

► Video: Taking a course (48 sec) · https://jwillisdunklin.github.io/tqc-roadmap-help/videos/course-learner.mp4

Your progress: Requirements you have finished in this course.

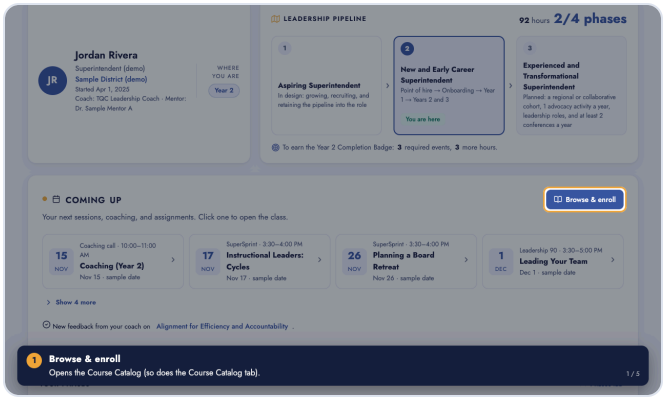

Modules: The course by week or topic. Each item shows what it takes to finish.

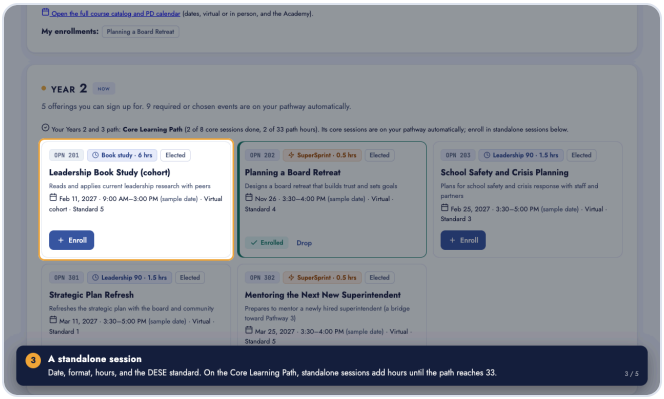

Enroll in courses and events

1. Click the **Course Catalog** tab (or **Browse & enroll** in Coming up).
2. Offerings are listed by phase with dates. Click **Enroll** to sign up; it goes on your Coming up list and calendar.
3. Changed your mind? Click **Drop**. Required events and your path's core ALEs are added for you.
4. For dates, times, and whether each session is virtual or in person, open **Course catalog and PD calendar** (link at the top of the catalog, and on the sign-in page).

▶ Video: Enrolling in courses (28 sec) · https://jwillisdunklin.github.io/tqc-roadmap-help/videos/enrolling.mp4

Browse & enroll: Opens the Course Catalog (so does the Course Catalog tab).

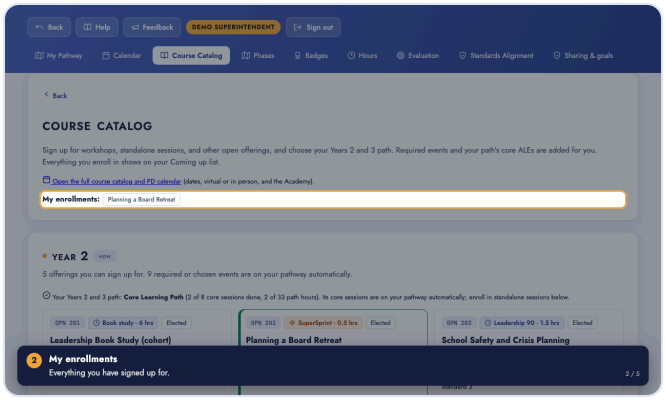

A standalone session: Date, format, hours, and the DESE standard. On the Core Learning Path, standalone sessions add hours until the path reaches 33.

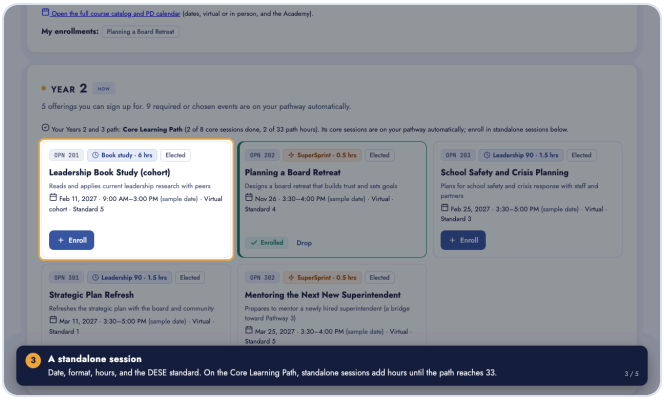

Choose your Years 2 and 3 path

1. In Year 2 you choose one path for Years 2 and 3. Find it in the **Course Catalog** or in Year 2 on My Pathway.
2. **Core Learning Path**: ALEs 9, 10, 11, 12, 14, 16, 17, and 18, any time across both years, plus standalone sessions you enroll in until the path reaches 33 hours (the Academy's hours).
3. **Superintendent Leadership Academy**: a 33-hour cohort academy (apply; fee). The ALE content is built in, so it counts for the eight ALEs.
4. Click **Choose this**. You can change it until you start; after that, ask your coach. Finish the path by the end of Year 3; the Year 3 Completion Badge and the certificate of completion need it.

▶ Video: Enrolling in courses (28 sec) · https://jwillisdunklin.github.io/tqc-roadmap-help/videos/enrolling.mp4

My enrollments: Everything you have signed up for.

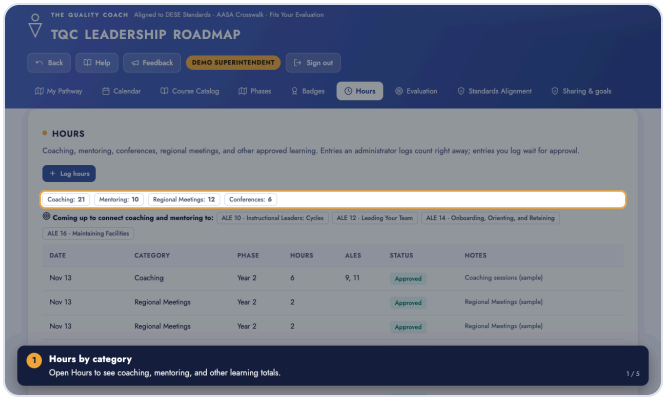

A standalone session: Date, format, hours, and the DESE standard. On the Core Learning Path, standalone sessions add hours until the path reaches 33.

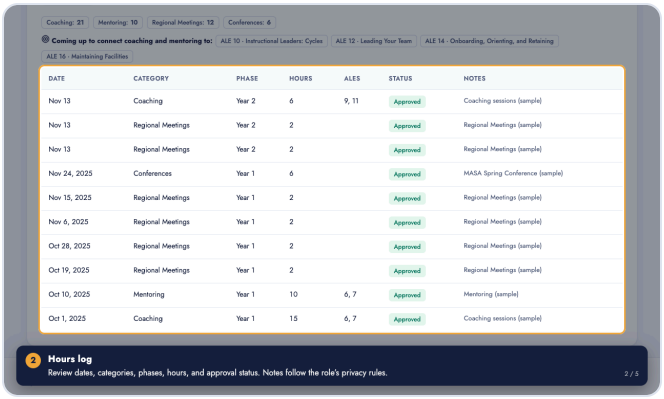

Log coaching, mentoring, and other hours

1. Open the **Hours** tab to see category totals and the hours log, then click **Log hours**.
2. Pick the category, hours, date, and the phase it counts toward, add a short note, and click **Log hours**. Log each regional meeting or conference as its own entry; each one counts toward the yearly number.
3. For **Coaching** or **Mentoring**, check the ALEs the session connected to. The Hours tab also lists the next ALEs coming up, so coaching and mentoring line up with the sessions.
4. Hours you log wait for a program administrator's approval. Don't include student names in notes.

▶ Video: Using the Hours tab (28 sec) · https://jwillisdunklin.github.io/tqc-roadmap-help/videos/hours.mp4

Hours by category: Open Hours to see coaching, mentoring, and other learning totals.

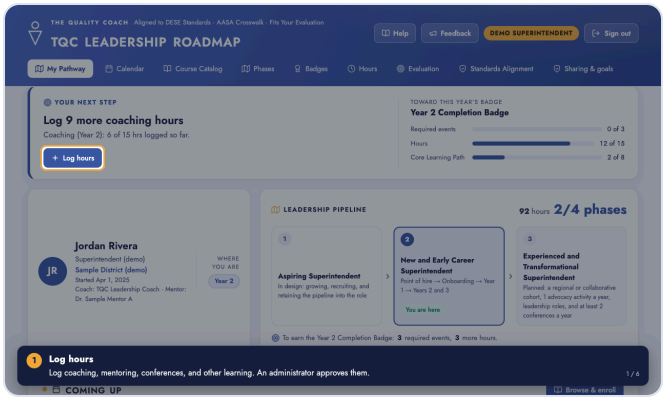

Hours log: Review dates, categories, phases, hours, and approval status. Notes follow the role's privacy rules.

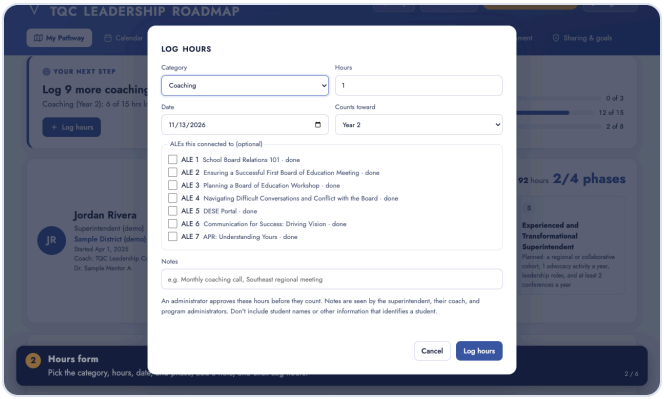

Ask to count equivalent learning

1. If you already did equivalent learning (prior experience, district training, a conference session), open **More** on that event and choose **Count other learning**.
2. Describe the learning and your evidence. Your coach and program administrators review it.
3. Coaching, mentoring, regional meetings, and conferences count from the hours you log, so they can't be substituted.

▶ Video: Hours, badges, and your evaluation (33 sec) · https://jwillisdunklin.github.io/tqc-roadmap-help/videos/hours-and-badges.mp4

Log hours: Log coaching, mentoring, conferences, and other learning. An administrator approves them.

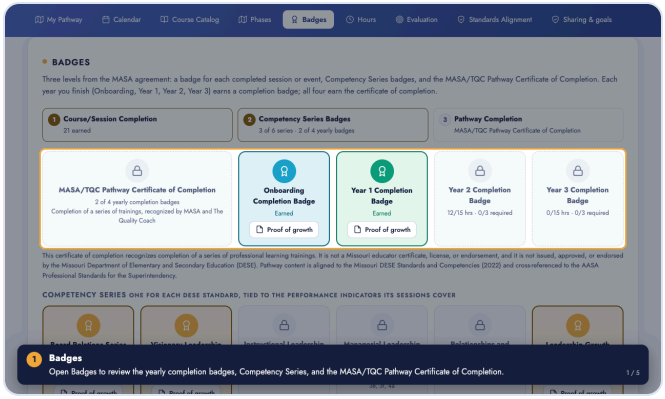

Hours form: Pick the category, hours, date, and phase, add a note, and click Log hours.

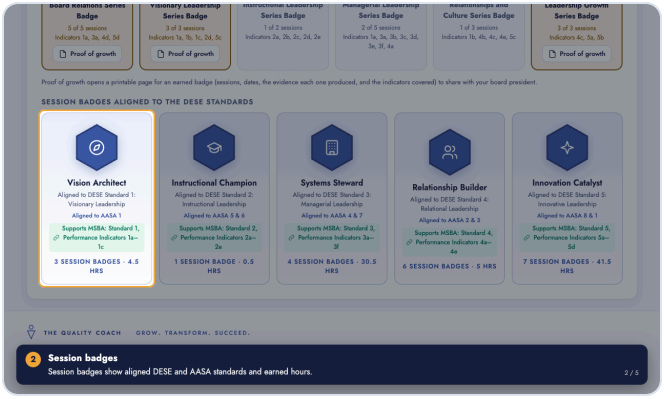

Badges and the MASA/TQC Pathway Certificate of Completion

1. Open the **Badges** tab. The strip at the top follows the three levels: Course/Session Completion, then Competency Series Badges (one or more for each DESE standard: Visionary, Instructional, and Managerial Leadership, Board Relations, Relationships and Culture, and Leadership Growth) and a **completion badge for each year** (Onboarding, Year 1, Year 2, and Year 3), then the MASA/TQC Pathway Certificate of Completion. Each series lists the performance indicators it covers. Click a session badge to open its standard in **Standards Alignment**, then use **Back** to return.
2. Each earned badge has **Proof of growth**: a printable page with the sessions, dates, the evidence each one produced, and the indicators covered, to share with your board president.
3. Earning all four yearly completion badges (finishing the full series of trainings) awards the **MASA/TQC Pathway Certificate of Completion**. Click **Print certificate** to print or save it as a PDF. Recognition at a MASA conference shows on the certificate badge.
4. It is a certificate of completion for a series of professional learning trainings, not a Missouri educator certificate, license, or endorsement, and not issued or endorsed by DESE.

► Video: [Using the Badges tab](#) (28 sec) · https://jwillisdunklin.github.io/tqc-roadmap-help/videos/badges.mp4

Badges: Open Badges to review the yearly completion badges, Competency Series, and the MASA/TQC Pathway Certificate of Completion.

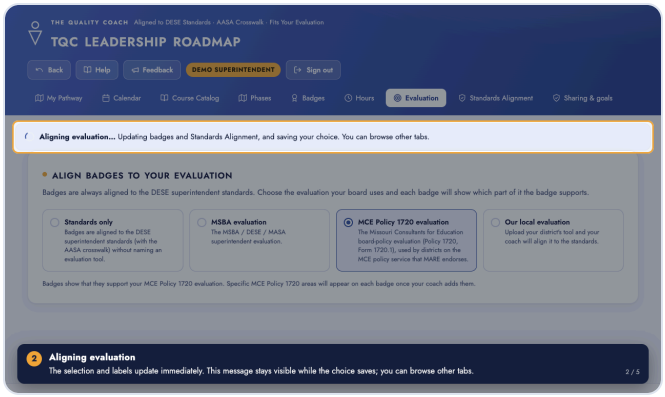

Session badges: Session badges show aligned DESE and AASA standards and earned hours.

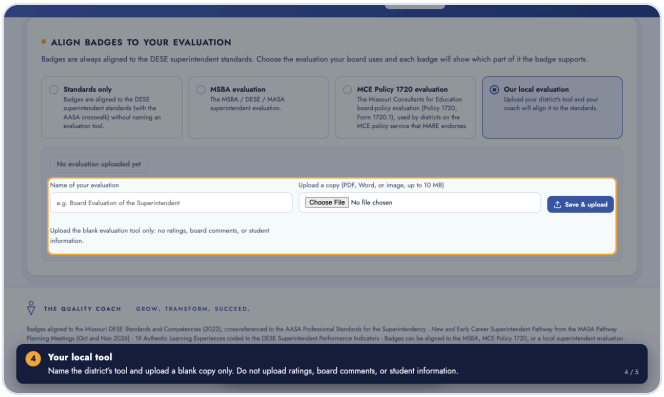

Connect your badges to your board's evaluation

1. Open the **Evaluation** tab and choose MSBA, MCE Policy 1720 (the MARE-endorsed policy service), your district's own tool, or standards only. For a local tool, the superintendent or an administrator gives it a name and uploads a blank copy with no ratings or board comments. Ask the program team to add the alignment. Each course also lists the MSBA/DESE/MASA evaluation performance indicators it supports (for example, Evaluation 2a, 2d) on its row and its class page.
2. Open the **Standards Alignment** tab to see completed work grouped by DESE standard. Click **Print report** to bring it to your board. Your selected tool and alignment labels update immediately. **Aligning evaluation...** stays visible while the choice saves; you can browse other tabs. Wait for **Evaluation saved** before making another change for that person. If saving cannot be confirmed, the previous alignment is restored and a message explains how to refresh or retry. Mentors do not see this tab; coach and public demo choices are not saved.

► Video: [Using the Evaluation tab](#) (28 sec) · https://jwillisdunklin.github.io/tqc-roadmap-help/videos/evaluation.mp4

Aligning evaluation: The selection and labels update immediately. This message stays visible while the choice saves; you can browse other tabs.

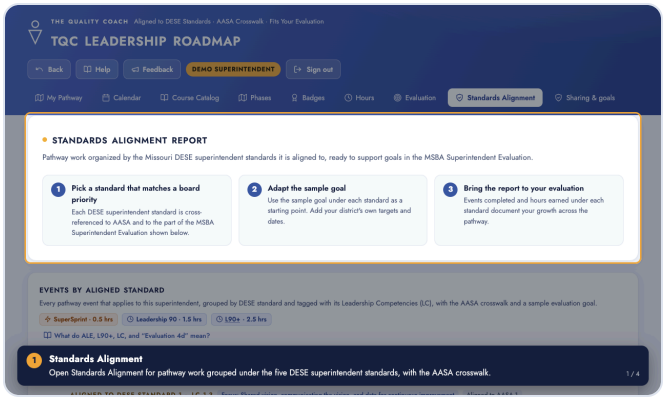

Your local tool: Name the district's tool and upload a blank copy only. Do not upload ratings, board comments, or student information.

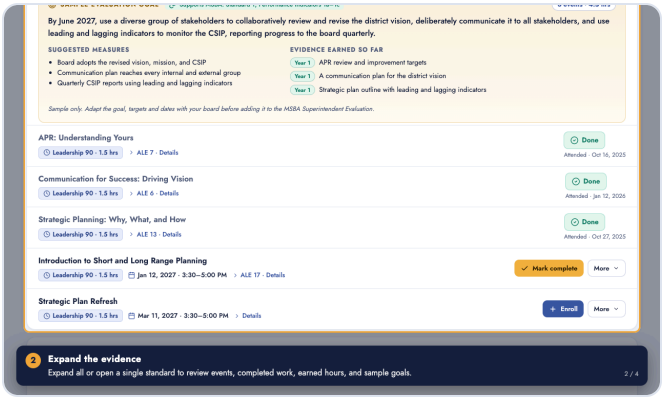

Use Standards Alignment and print your report

1. Open **Standards Alignment**. The report groups pathway events and earned hours under the five DESE superintendent standards, with an AASA crosswalk.
2. Use **Expand all**, **Collapse all**, or click one standard to see its events, evidence, and sample goal. Evaluation connections appear for roles allowed to see them.
3. Choose **Print report** to print or save the report as a PDF. Adapt sample goals and measures with your board; they are starting points.
4. Choose the board's evaluation tool on the **Evaluation** tab. These alignments support evaluation; badges are professional learning recognition, not a Missouri educator credential.

► Video: Using Standards Alignment (23 sec) · https://jwillisdunklin.github.io/tqc-roadmap-help/videos/standards-alignment.mp4

Standards Alignment: Open Standards Alignment for pathway work grouped under the five DESE superintendent standards, with the AASA crosswalk.

Expand the evidence: Expand all or open a single standard to review events, completed work, earned hours, and sample goals.

Choose who sees what (Sharing & goals)

1. Open the **Sharing & goals** tab. Each person assigned to you (coach, mentor, MASA staff, board president) is listed separately.
2. Check what each one can see: **Pathway**, **Standards Alignment**, **Hours**, **Evaluation goals / board report**, and (coaches only) **Coaching notes and submitted work**.
3. Click **Save sharing choices**. It applies on their next click. Program administrators always see everything.
4. Your board president sees nothing until you share your goals, and then only your completed learning and those goals.

Announce your pathway completion

1. Open **Sharing & goals** and find **When I complete the pathway**.
2. Check **Email my board president** and, if you like, add up to five other people. Click **Save**.
3. The email goes once, when you earn the certificate (or right away if you already have). It names the pathway and the certificate and says you asked us to share it; nothing from your hours, notes, goals, or evaluation.

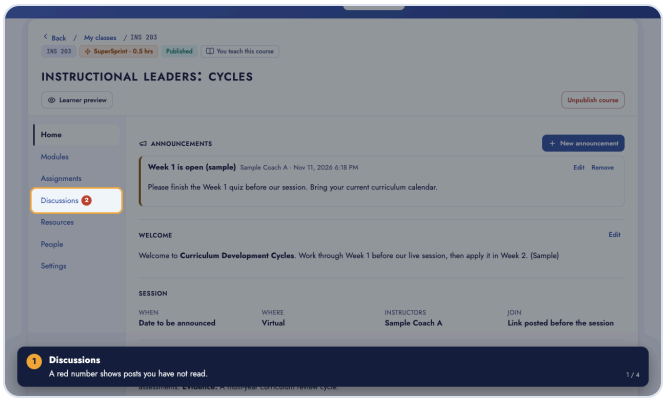

Write your evaluation goals

1. On **Sharing & goals**, scroll to **My evaluation goals**.
2. For each standard, add the evaluation area, your goal, and how you will measure success, then click **Save evaluation goals**.
3. Your goals appear in Standards Alignment next to the learning you completed, and in the report you can share with your board president.
4. Don't enter ratings, confidential board comments, or student information.

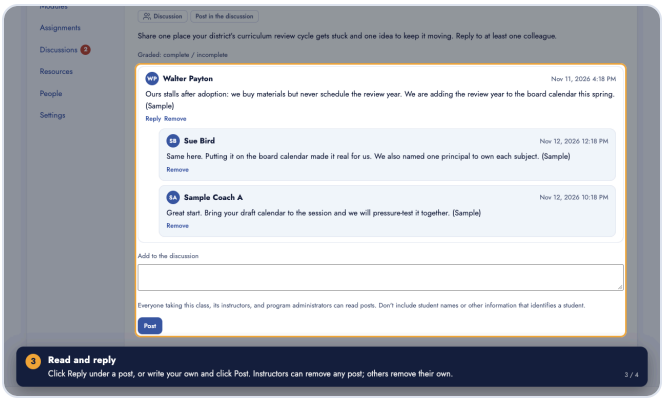

Join a course discussion

1. Open **Discussions** in the course. A red number shows unread posts.
2. Open a topic, read the posts, and click **Reply** under one, or write your own and click **Post**. You can **Remove** your own posts.
3. Everyone taking the course, its instructors, and program administrators can read posts. Some discussions are graded; posting counts toward the course's requirements.

► Video: Course discussions (23 sec) · https://jwillisdunklin.github.io/tqc-roadmap-help/videos/course-discussions.mp4

Discussions: A red number shows posts you have not read.

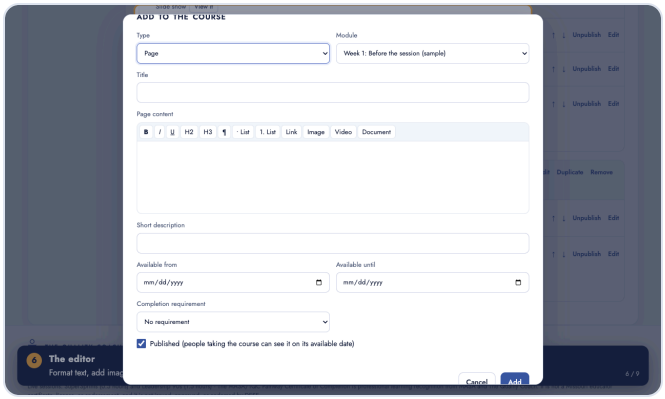

Read and reply: Click Reply under a post, or write your own and click Post. Instructors can remove any post; others remove their own.

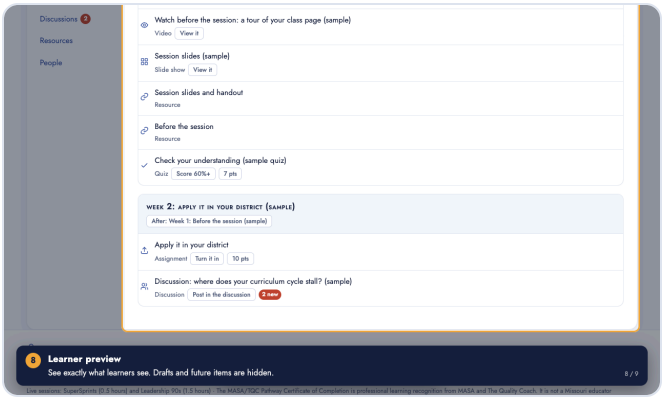

Completion requirements, prerequisites, and credit

1. Each item can have a **Completion requirement**: View it, Mark it done, Post in the discussion, Turn it in, or Score at least a percent.
2. In **Edit** on a module, choose **Prerequisites** (finish these modules first) and whether items must be done **in order**. Learners see a lock and the reason.
3. When someone meets every requirement, and the course includes real work (turn in, a minimum score, or a discussion post), it goes to a program administrator to approve for pathway credit: the course's hours, DESE standard, and badges. It counts once. Viewing alone never finishes a course, and course grades never feed the evaluation.

► Video: [Building a course](#) (48 sec) · https://jwillisdunklin.github.io/tqc-roadmap-help/videos/course-building.mp4

The editor: Format text, add images, links, YouTube or Vimeo videos, and documents. Set dates and the completion requirement.

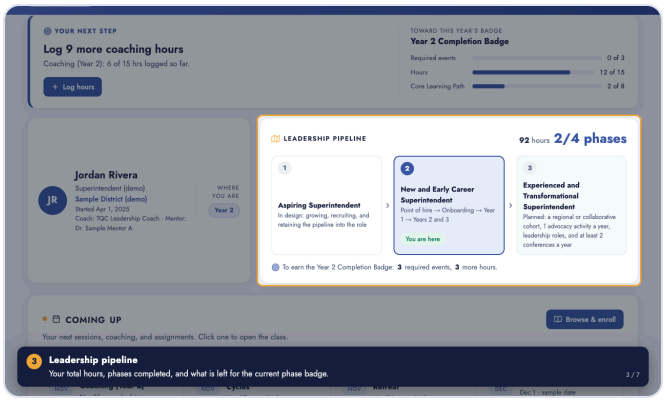

Learner preview: See exactly what learners see. Drafts and future items are hidden.

For coaches, mentors, and instructors

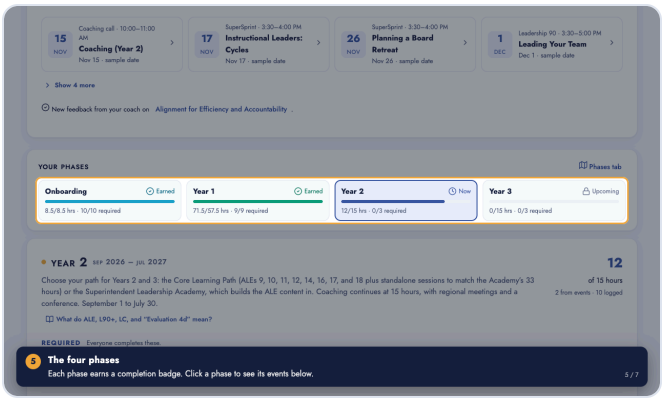

Regional meetings and conferences each year

1. Each year (Year 1, Year 2, and Year 3) you attend **4 or more regional meetings** and **at least 1 conference**: the Spring Conference, Fall Conference, AASA Conference, or Women in Leadership Summit.
2. Log each one on the **Hours** tab (category **Regional Meetings** or **Conferences**). Each entry counts once toward the yearly number, and its hours count toward the phase.
3. The event row shows how many you have (for example, **2 of 4 attended**). **Tight Times Tuesdays** is recommended, with a goal of attending at least 70% of the year's sessions; log each one under **Tight Times**.

► Video: Your pathway (38 sec) · https://jwillisdunklin.github.io/tqc-roadmap-help/videos/your-pathway.mp4

Leadership pipeline: Your total hours, phases completed, and what is left for the current phase badge.

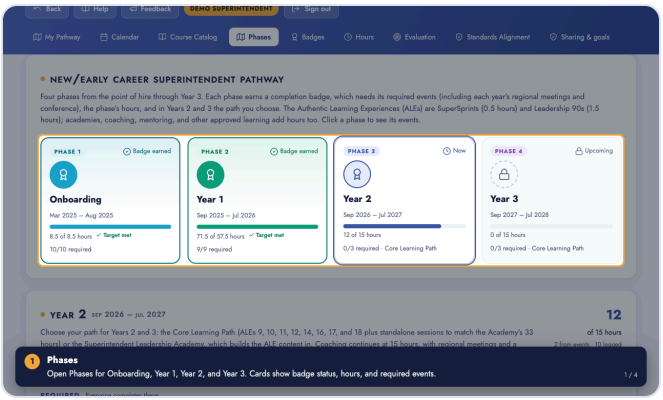

The four phases: Each phase earns a completion badge. Click a phase to see its events below.

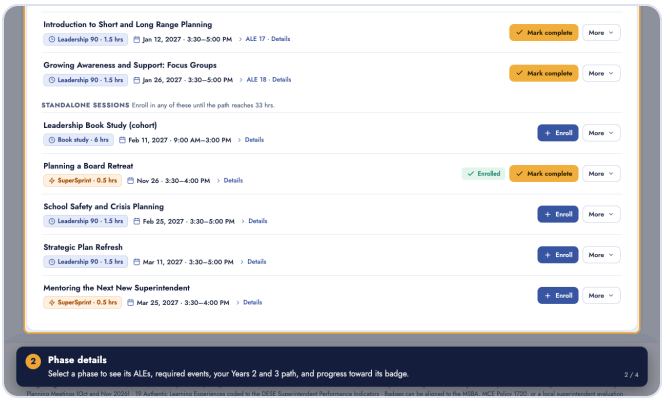

Use the Phases tab

1. Open **Phases**. The four cards show Onboarding, Year 1, Year 2, and Year 3 with earned hours, required events, and badge status.
2. Click a phase card. Its detail lists required events, the Years 2 and 3 path, and learning hours for that phase. Onboarding is 8.5 hours (ALEs 1-5, 8, and 19); Year 1 is 57.5 (the Finance Academy, ALEs 6, 7, 13, and 15, mentor, and coach).
3. Click any class title to open materials, assignments, and completion information. **Back** returns to the selected phase.

▶ Video: Using the Phases tab (23 sec) · https://jwillisdunklin.github.io/tqc-roadmap-help/videos/phases.mp4

Phases: Open Phases for Onboarding, Year 1, Year 2, and Year 3. Cards show badge status, hours, and required events.

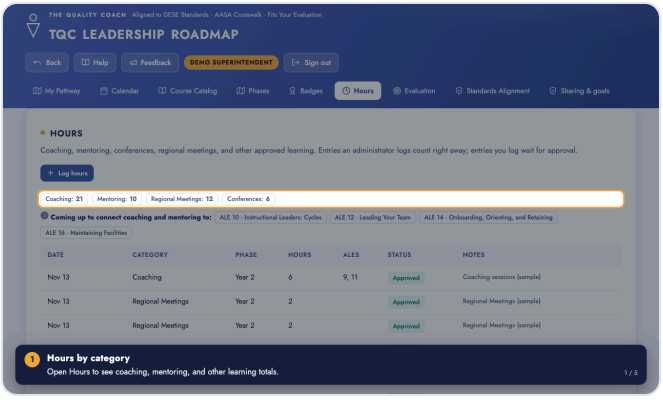

Phase details: Select a phase to see its ALEs, required events, your Years 2 and 3 path, and progress toward its badge.

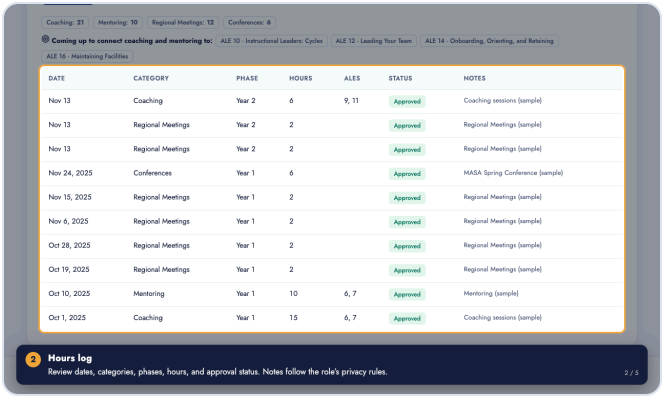

Log coaching, mentoring, and other hours

1. Open the **Hours** tab to see category totals and the hours log, then click **Log hours**.
2. Pick the category, hours, date, and the phase it counts toward, add a short note, and click **Log hours**. Log each regional meeting or conference as its own entry; each one counts toward the yearly number.
3. For **Coaching** or **Mentoring**, check the ALEs the session connected to. The Hours tab also lists the next ALEs coming up, so coaching and mentoring line up with the sessions.
4. Hours you log wait for a program administrator's approval. Don't include student names in notes.

▶ Video: Using the Hours tab (28 sec) · https://jwillisdunklin.github.io/tqc-roadmap-help/videos/hours.mp4

Hours by category: Open Hours to see coaching, mentoring, and other learning totals.

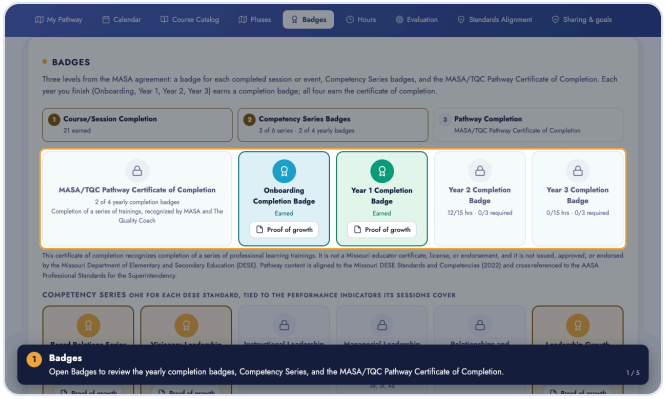

Hours log: Review dates, categories, phases, hours, and approval status. Notes follow the role's privacy rules.

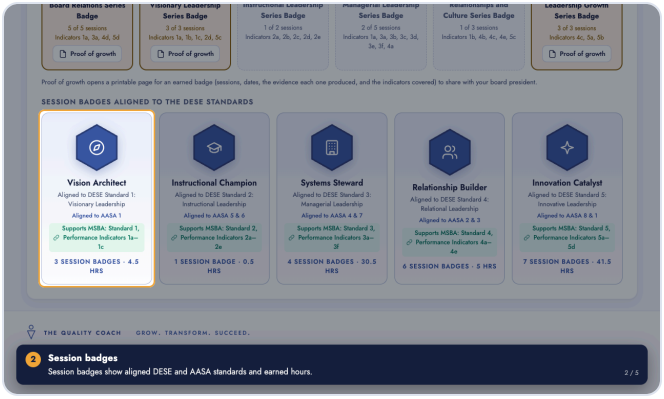

Badges and the MASA/TQC Pathway Certificate of Completion

1. Open the **Badges** tab. The strip at the top follows the three levels: Course/Session Completion, then Competency Series Badges (one or more for each DESE standard: Visionary, Instructional, and Managerial Leadership, Board Relations, Relationships and Culture, and Leadership Growth) and a **completion badge for each year** (Onboarding, Year 1, Year 2, and Year 3), then the MASA/TQC Pathway Certificate of Completion. Each series lists the performance indicators it covers. Click a session badge to open its standard in **Standards Alignment**, then use **Back** to return.
2. Each earned badge has **Proof of growth**: a printable page with the sessions, dates, the evidence each one produced, and the indicators covered, to share with your board president.
3. Earning all four yearly completion badges (finishing the full series of trainings) awards the **MASA/TQC Pathway Certificate of Completion**. Click **Print certificate** to print or save it as a PDF. Recognition at a MASA conference shows on the certificate badge.
4. It is a certificate of completion for a series of professional learning trainings, not a Missouri educator certificate, license, or endorsement, and not issued or endorsed by DESE.

► Video: [Using the Badges tab](#) (28 sec) · https://jwillisdunklin.github.io/tqc-roadmap-help/videos/badges.mp4

Badges: Open Badges to review the yearly completion badges, Competency Series, and the MASA/TQC Pathway Certificate of Completion.

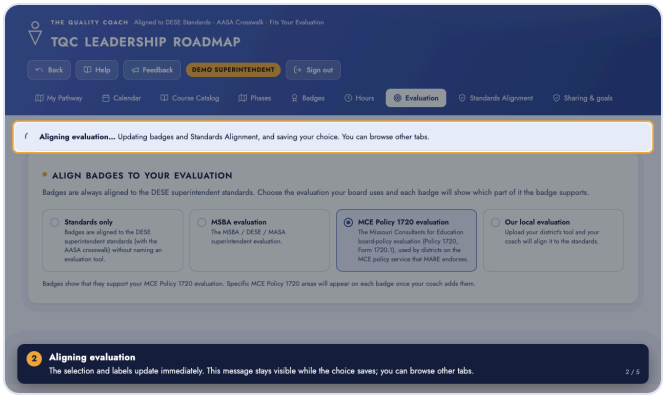

Session badges: Session badges show aligned DESE and AASA standards and earned hours.

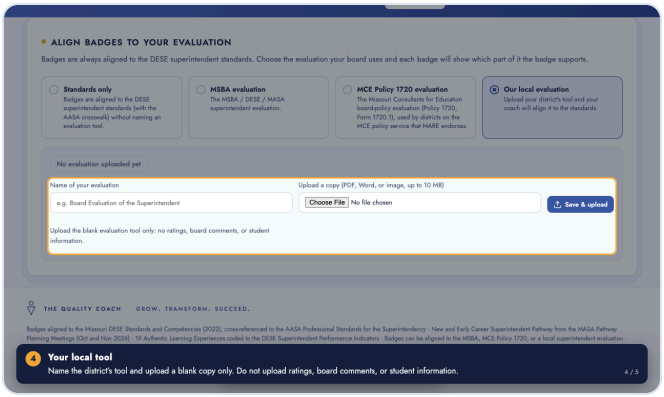

Connect your badges to your board's evaluation

1. Open the **Evaluation** tab and choose MSBA, MCE Policy 1720 (the MARE-endorsed policy service), your district's own tool, or standards only. For a local tool, the superintendent or an administrator gives it a name and uploads a blank copy with no ratings or board comments. Ask the program team to add the alignment. Each course also lists the MSBA/DESE/MASA evaluation performance indicators it supports (for example, Evaluation 2a, 2d) on its row and its class page.
2. Open the **Standards Alignment** tab to see completed work grouped by DESE standard. Click **Print report** to bring it to your board. Your selected tool and alignment labels update immediately. **Aligning evaluation…** stays visible while the choice saves; you can browse other tabs. Wait for **Evaluation saved** before making another change for that person. If saving cannot be confirmed, the previous alignment is restored and a message explains how to refresh or retry. Mentors do not see this tab; coach and public demo choices are not saved.

► Video: Using the Evaluation tab (28 sec) · https://jwillisdunklin.github.io/tqc-roadmap-help/videos/evaluation.mp4

Aligning evaluation: The selection and labels update immediately. This message stays visible while the choice saves; you can browse other tabs.

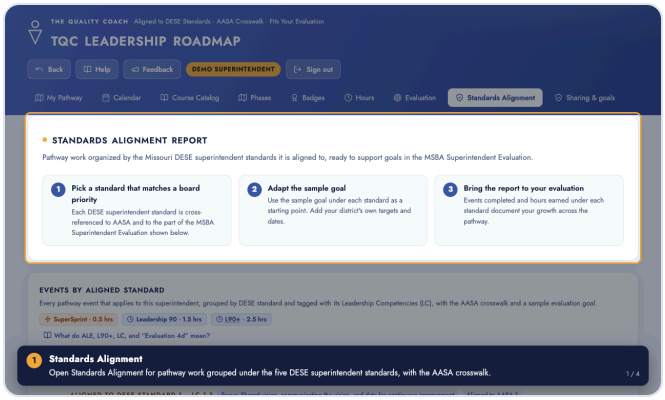

Your local tool: Name the district's tool and upload a blank copy only. Do not upload ratings, board comments, or student information.

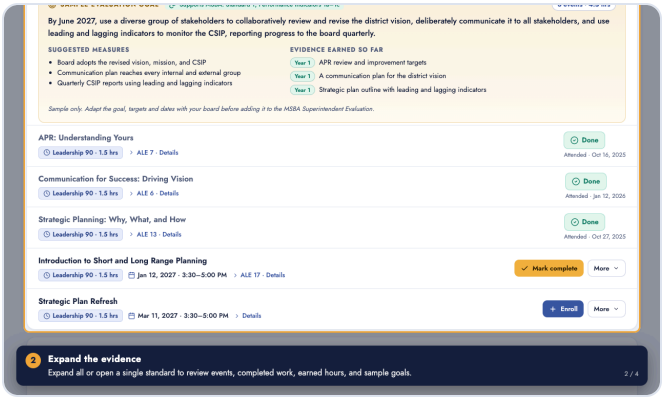

Use Standards Alignment and print your report

1. Open **Standards Alignment**. The report groups pathway events and earned hours under the five DESE superintendent standards, with an AASA crosswalk.
2. Use **Expand all**, **Collapse all**, or click one standard to see its events, evidence, and sample goal. Evaluation connections appear for roles allowed to see them.
3. Choose **Print report** to print or save the report as a PDF. Adapt sample goals and measures with your board; they are starting points.
4. Choose the board's evaluation tool on the **Evaluation** tab. These alignments support evaluation; badges are professional learning recognition, not a Missouri educator credential.

► Video: Using Standards Alignment (23 sec) · https://jwillisdunklin.github.io/tqc-roadmap-help/videos/standards-alignment.mp4

Standards Alignment: Open Standards Alignment for pathway work grouped under the five DESE superintendent standards, with the AASA crosswalk.

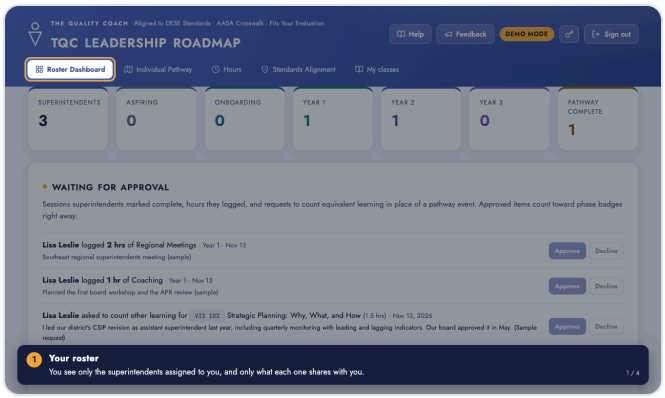

Expand the evidence: Expand all or open a single standard to review events, completed work, earned hours, and sample goals.

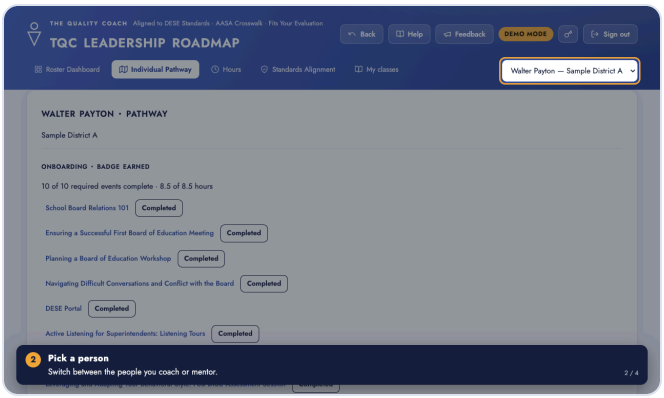

See the superintendents you coach or mentor

1. You see only the superintendents assigned to you (from the Coach Email or Mentor Email on the roster).
2. Use the list at the top to switch people. Mentoring stays non-evaluative: mentors don't see the evaluation or coaching notes.

► Video: [For coaches and mentors] (23 sec) · https://jwillisdunklin.github.io/tqc-roadmap-help/videos/coach-tools.mp4

Your roster: You see only the superintendents assigned to you, and only what each one shares with you.

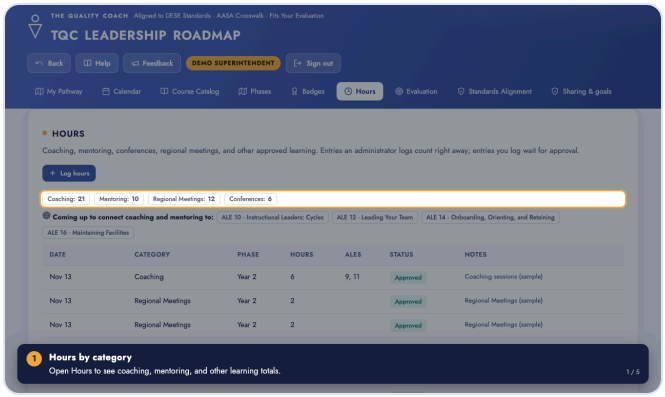

Pick a person: Switch between the people you coach or mentor.

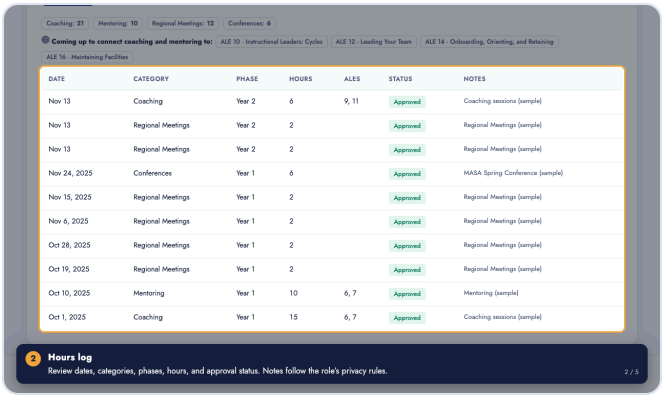

Connect coaching and mentoring to the ALEs

1. On the **Roster Dashboard**, each superintendent shows their next ALE by name, with how many more follow (**Next: ALE 6 · Communication for Success: Driving Vision +2**; point to it for the full list). The **Hours** tab lists them too.
2. When you log coaching or mentoring hours, check the ALEs the session connected to. They show in the hours log, so the coach who stays through Year 3 can see the thread.

► Video: [Using the Hours tab] (28 sec) · https://jwillisdunklin.github.io/tqc-roadmap-help/videos/hours.mp4

Hours by category: Open Hours to see coaching, mentoring, and other learning totals.

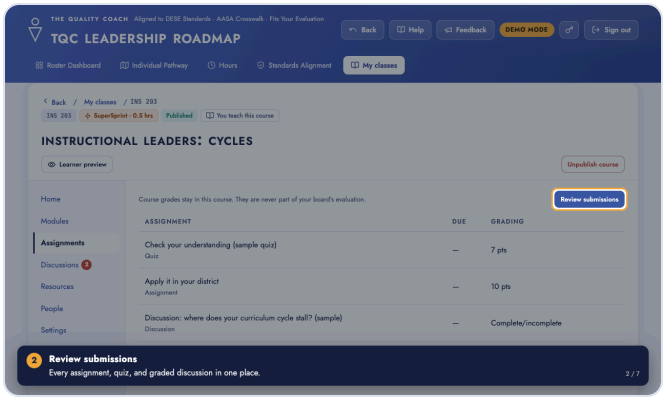

Hours log: Review dates, categories, phases, hours, and approval status. Notes follow the role's privacy rules.

Coaching versus teaching: what you can see

1. **As a coach or mentor** you see the superintendents assigned to you, limited by what each one shares on **Sharing & goals**. A coach they share "notes and submitted work" with can read their course work, but can't grade it.
2. **As a course instructor** you manage only the courses you're assigned to teach: you build them, see who is taking them, and review and grade the work turned in for them. Teaching doesn't show you anyone's evaluation, coaching notes, other courses, or records.
3. Being a coach or mentor doesn't let you edit courses. A program administrator assigns instructors.

► Video: Reviewing and grading work (38 sec) · https://jwillisdunklin.github.io/tqc-roadmap-help/videos/course-grading.mp4

Review submissions: Every assignment, quiz, and graded discussion in one place.

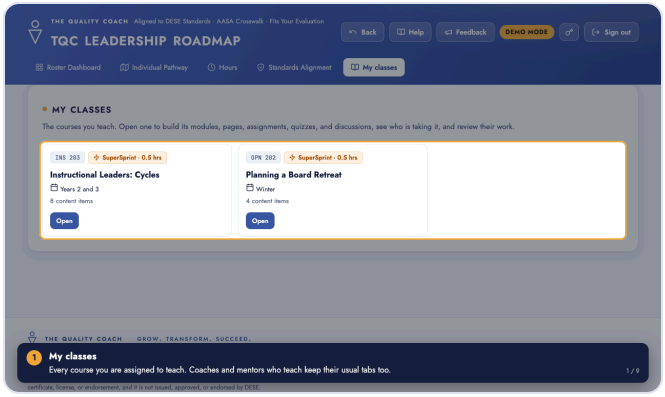

Grade and feedback: Read their work, score the rubric or points, and write feedback. Request revision opens a new attempt.

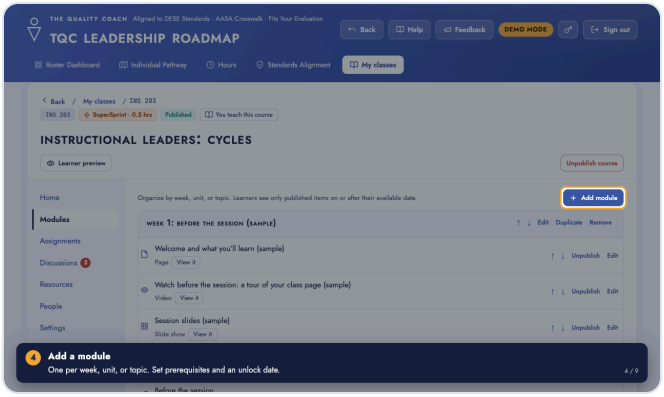

Build modules and lesson pages

1. Open **My classes** and a course, then **Modules**. Click **Add module** for each week, unit, or topic.
2. In a module, click **Add to this module** and choose **Page**, **Video**, **Slide show**, **Resource**, **Assignment**, **Quiz**, or **Discussion**.
3. Pages use the editor: bold, italic, headings, lists, links, **Image** (an https image link), **Video** (YouTube, Vimeo, Loom, or Google Drive), and **Document** links. To attach a file, use **Attach a document** on a resource or assignment (PDF, Word, PowerPoint, Excel; up to 10 MB).
4. Use ↑ ↓ to reorder modules and items, **Edit** to change them, and **Duplicate** to copy a module here or into another course you teach.
5. **All classes** (or **My classes**) at the top of a course goes back to your class list. Clicking the **Classes** tab always opens the list, too. Switching between a course's tabs (Home, Modules, Assignments, and so on) keeps your place on the page.

► Video: Building a course (48 sec) · https://jwillisdunklin.github.io/tqc-roadmap-help/videos/course-building.mp4

My classes: Every course you are assigned to teach. Coaches and mentors who teach keep their usual tabs too.

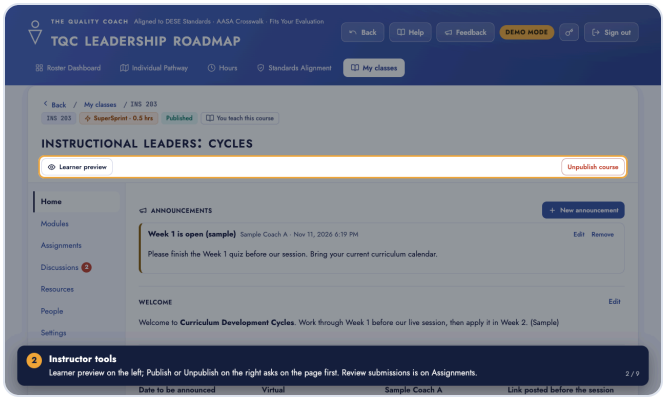

Add a module: One per week, unit, or topic. Set prerequisites and an unlock date.

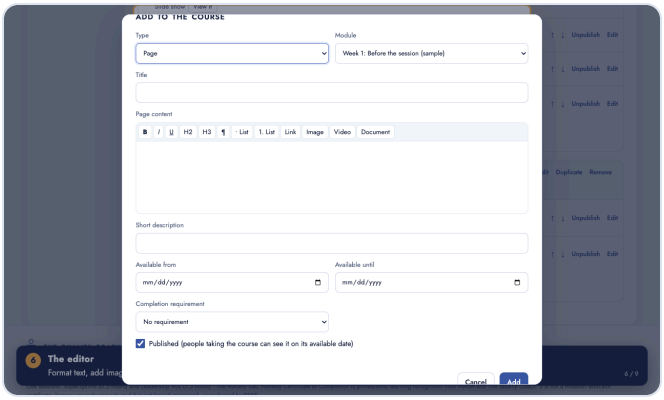

Drafts, publishing, dates, and learner preview

1. New courses and anything you uncheck **Published** on are drafts: only instructors and administrators see them. Click **Publish course** (top right of the course) when it's ready. The page asks you to confirm before it publishes; **Unpublish course** asks too, and hides the course from learners until you publish it again.
2. Give any item **Available from** and **Available until** dates, and a **Due date** (or days after the session). Modules can have an **Unlocks on** date.
3. Click **Learner preview** to see exactly what someone taking the course sees. Click **Exit learner preview** to go back to editing.
4. Changes you save here show to learners on their next click. Edits typed straight into the spreadsheet show on the next click too (allow up to 10 minutes if another tool or script made the change).

► Video: Building a course (48 sec) · https://jwillisdunklin.github.io/tqc-roadmap-help/videos/course-building.mp4

Instructor tools: Learner preview on the left; Publish or Unpublish on the right asks on the page first. Review submissions is on Assignments.

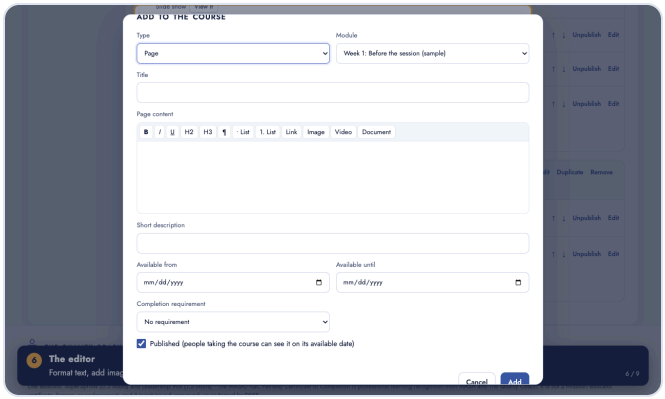

The editor: Format text, add images, links, YouTube or Vimeo videos, and documents. Set dates and the completion requirement.

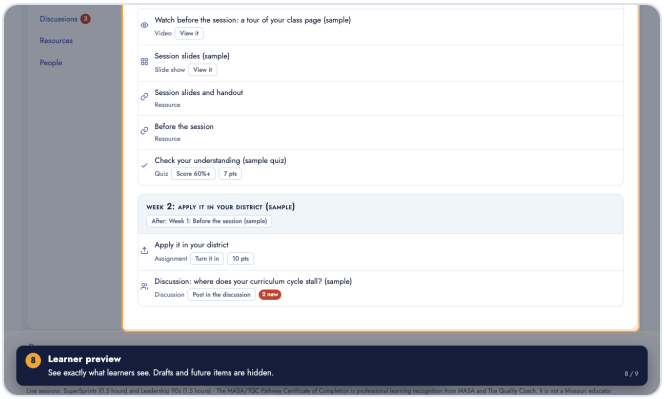

Completion requirements, prerequisites, and credit

1. Each item can have a **Completion requirement**: View it, Mark it done, Post in the discussion, Turn it in, or Score at least a percent.
2. In **Edit** on a module, choose **Prerequisites** (finish these modules first) and whether items must be done **in order**. Learners see a lock and the reason.
3. When someone meets every requirement, and the course includes real work (turn in, a minimum score, or a discussion post), it goes to a program administrator to approve for pathway credit: the course's hours, DESE standard, and badges. It counts once. Viewing alone never finishes a course, and course grades never feed the evaluation.

► Video: [Building a course](#) (48 sec) · https://jwillisdunklin.github.io/tqc-roadmap-help/videos/course-building.mp4

The editor: Format text, add images, links, YouTube or Vimeo videos, and documents. Set dates and the completion requirement.

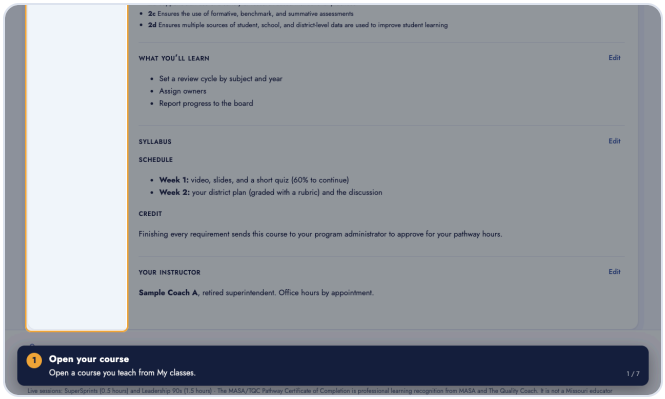

Learner preview: See exactly what learners see. Drafts and future items are hidden.

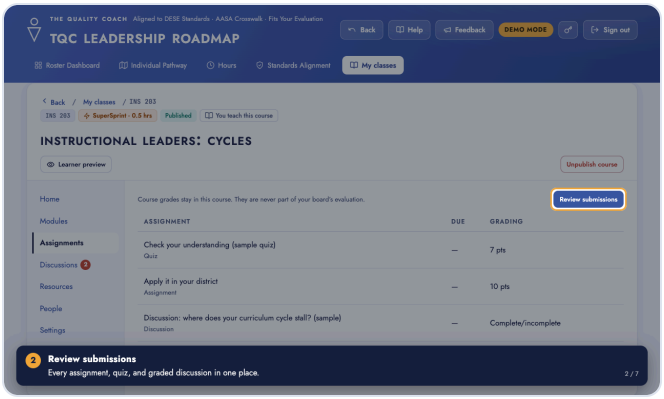

Create assignments and review work

1. Add an **Assignment** with instructions, an optional attached document, due and availability dates, and what people can turn in (a written response, a link, a file).
2. Choose grading: **Complete / incomplete**, **Points**, or a **Rubric**.
3. Open **Assignments › Review submissions**. Each person shows **Not turned in**, **Submitted**, **Late**, **Missing**, **Needs revision**, or **Reviewed**. Click **Grade**, read the work (open their file), score the rubric or points, write feedback, then **Save grade** or **Request revision**.

► Video: Reviewing and grading work (38 sec) · https://jwillisdunklin.github.io/tqc-roadmap-help/videos/course-grading.mp4

Open your course: Open a course you teach from My classes.

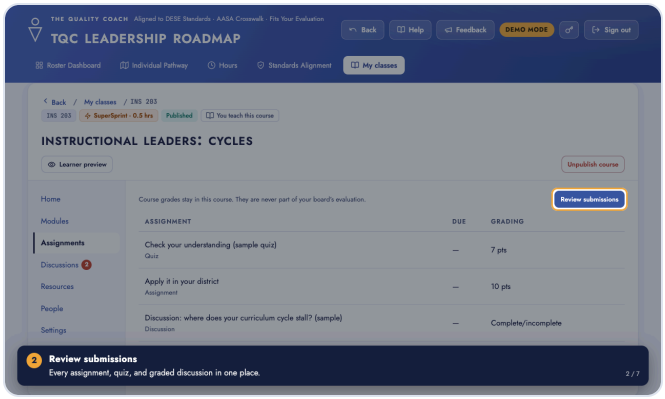

Review submissions: Every assignment, quiz, and graded discussion in one place.

Quizzes, question banks, and rubrics

1. In **Settings › Quiz question bank**, add multiple choice, true/false, short answer (list the accepted answers), and essay questions. Questions can be reused in any quiz in the course.
2. Add a **Quiz** in a module, check the questions to include, and set the attempts allowed. Choice and short answers are scored automatically; you score essays in **Review submissions**.
3. In **Settings › Rubrics**, add a rubric one row per line (what you look for | points | ratings), then choose it on an assignment or graded discussion.

► Video: Reviewing and grading work (38 sec) · https://jwillisdunklin.github.io/tqc-roadmap-help/videos/course-grading.mp4

Review submissions: Every assignment, quiz, and graded discussion in one place.

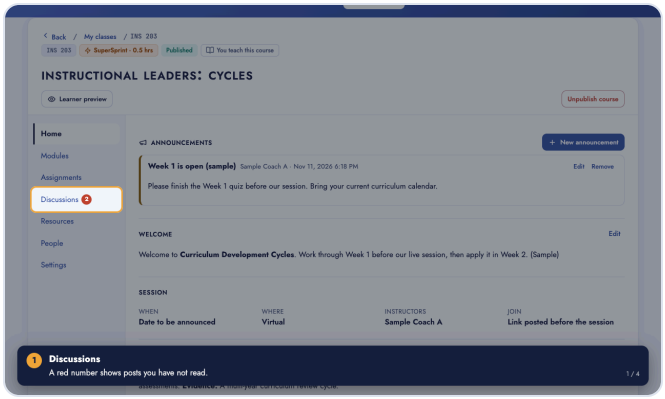

Grade and feedback: Read their work, score the rubric or points, and write feedback. Request revision opens a new attempt.

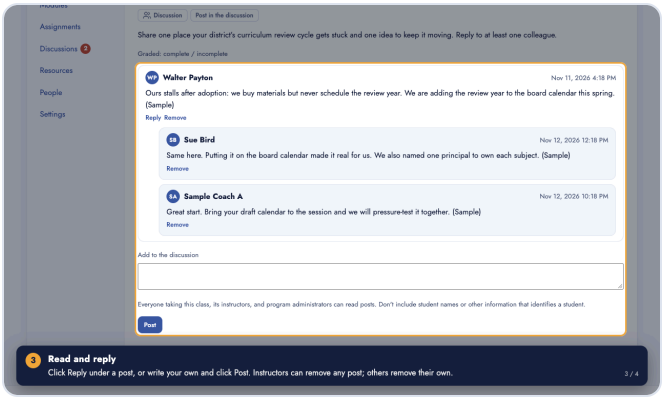

Create and moderate discussions

1. In **Discussions**, click **New discussion**, write the prompt, and choose whether it's graded (complete/incomplete or points).
2. Read and reply like anyone else. **Remove** hides a post (you still see it, marked removed).
3. Grade participation in **Review submissions**; it shows how many times each person posted.

► Video: Course discussions (23 sec) · https://jwillisdunklin.github.io/tqc-roadmap-help/videos/course-discussions.mp4

Discussions: A red number shows posts you have not read.

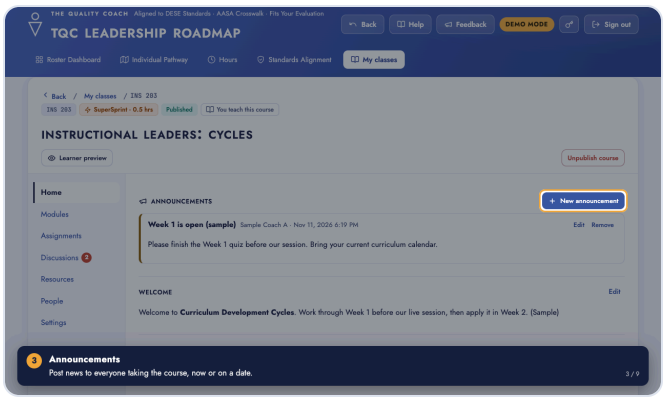

Read and reply: Click Reply under a post, or write your own and click Post. Instructors can remove any post; others remove their own.

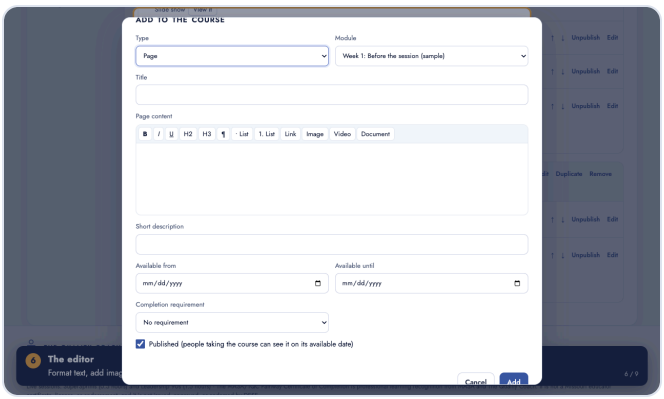

Announcements and email notifications

1. On **Home**, click **New announcement**. You can schedule it with **Show starting**.
2. In **Settings**, choose which emails go out: new announcements, reviewed work, and day-before due reminders (an administrator turns reminders on in the sheet menu).
3. People can turn off a course's emails on its Home page. The demo never sends email.

► Video: Building a course (48 sec) · https://jwillisdunklin.github.io/tqc-roadmap-help/videos/course-building.mp4

Announcements: Post news to everyone taking the course, now or on a date.

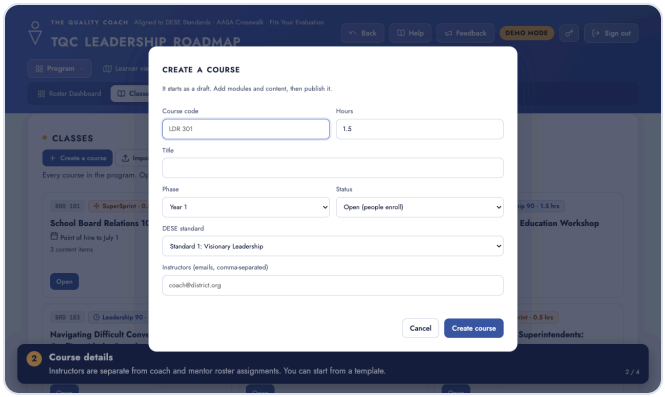

The editor: Format text, add images, links, YouTube or Vimeo videos, and documents. Set dates and the completion requirement.

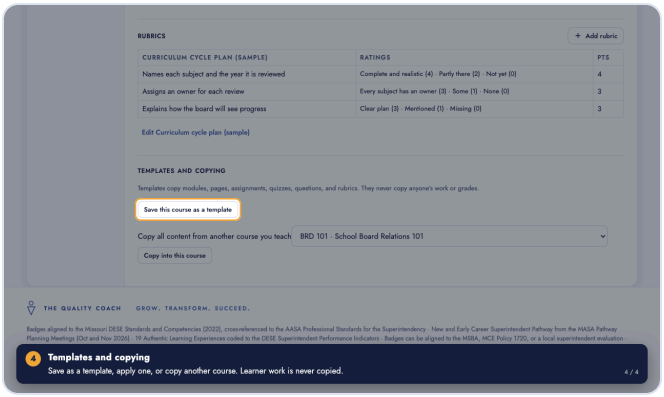

Templates, copying, and duplicating

1. In **Settings**, **Save this course as a template** copies its modules, pages, assignments, quizzes, questions, and rubrics (never anyone's work or grades).
2. Add a template to another course, start a new course from one, or **Copy all content from another course you teach**. Instructors see templates saved from courses they teach; administrators see them all.
3. In **Modules**, **Duplicate** copies one module here or into another course you teach.

► Video: [Administrators: courses and instructors](#) (23 sec) · https://jwillisdunklin.github.io/tqc-roadmap-help/videos/course-admin.mp4

Course details: Instructors are separate from coach and mentor roster assignments. You can start from a template.

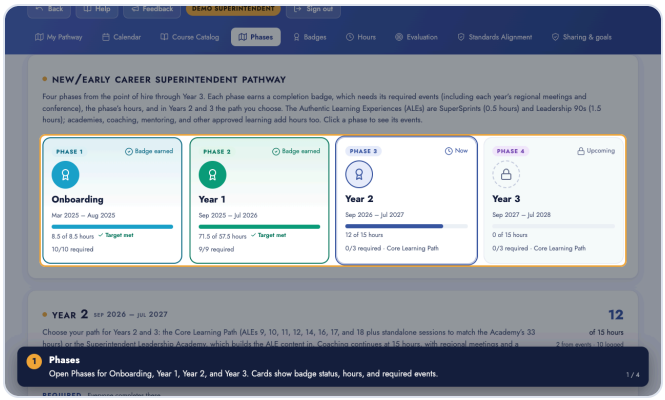

Templates and copying: Save as a template, apply one, or copy another course. Learner work is never copied.

For MASA staff

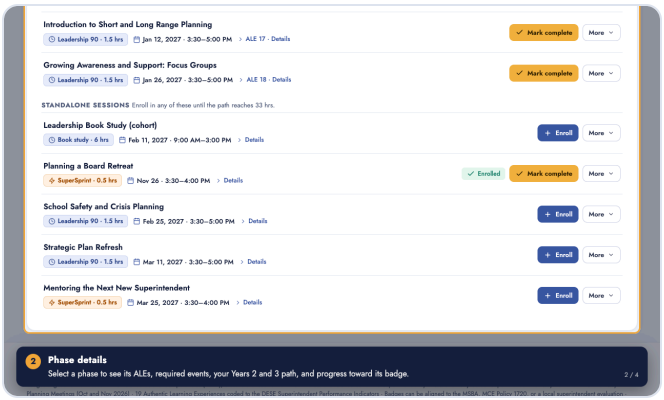

Use the Phases tab

1. Open **Phases**. The four cards show Onboarding, Year 1, Year 2, and Year 3 with earned hours, required events, and badge status.
2. Click a phase card. Its detail lists required events, the Years 2 and 3 path, and learning hours for that phase. Onboarding is 8.5 hours (ALEs 1-5, 8, and 19); Year 1 is 57.5 (the Finance Academy, ALEs 6, 7, 13, and 15, mentor, and coach).
3. Click any class title to open materials, assignments, and completion information. **Back** returns to the selected phase.

▶ Video: Using the Phases tab (23 sec) · https://jwillisdunklin.github.io/tqc-roadmap-help/videos/phases.mp4

Phases: Open Phases for Onboarding, Year 1, Year 2, and Year 3. Cards show badge status, hours, and required events.

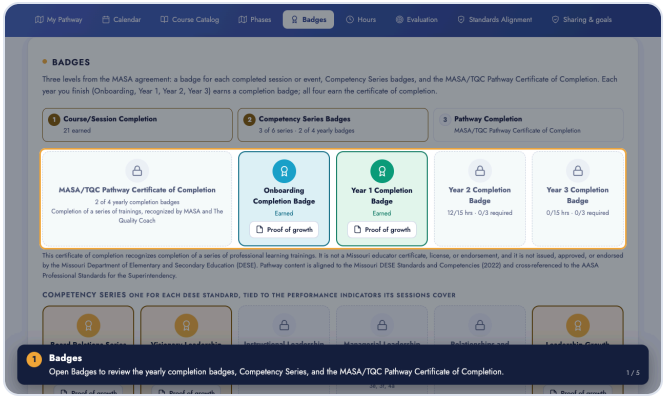

Phase details: Select a phase to see its ALEs, required events, your Years 2 and 3 path, and progress toward its badge.

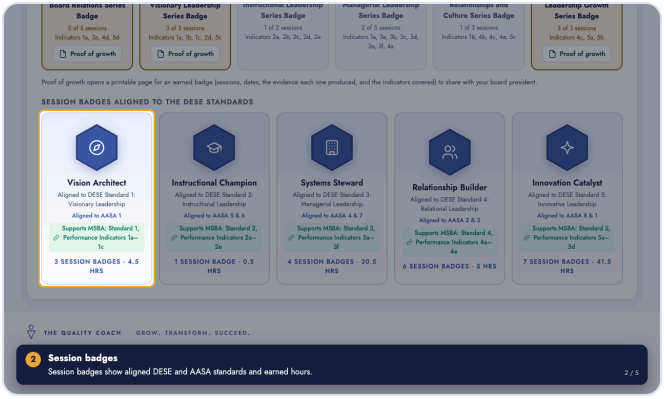

Badges and the MASA/TQC Pathway Certificate of Completion

1. Open the **Badges** tab. The strip at the top follows the three levels: Course/Session Completion, then Competency Series Badges (one or more for each DESE standard: Visionary, Instructional, and Managerial Leadership, Board Relations, Relationships and Culture, and Leadership Growth) and a **completion badge for each year** (Onboarding, Year 1, Year 2, and Year 3), then the MASA/TQC Pathway Certificate of Completion. Each series lists the performance indicators it covers. Click a session badge to open its standard in **Standards Alignment**, then use **Back** to return.
2. Each earned badge has **Proof of growth**: a printable page with the sessions, dates, the evidence each one produced, and the indicators covered, to share with your board president.
3. Earning all four yearly completion badges (finishing the full series of trainings) awards the **MASA/TQC Pathway Certificate of Completion**. Click **Print certificate** to print or save it as a PDF. Recognition at a MASA conference shows on the certificate badge.
4. It is a certificate of completion for a series of professional learning trainings, not a Missouri educator certificate, license, or endorsement, and not issued or endorsed by DESE.

► Video: [Using the Badges tab](#) (28 sec) · https://jwillisdunklin.github.io/tqc-roadmap-help/videos/badges.mp4

Badges: Open Badges to review the yearly completion badges, Competency Series, and the MASA/TQC Pathway Certificate of Completion.

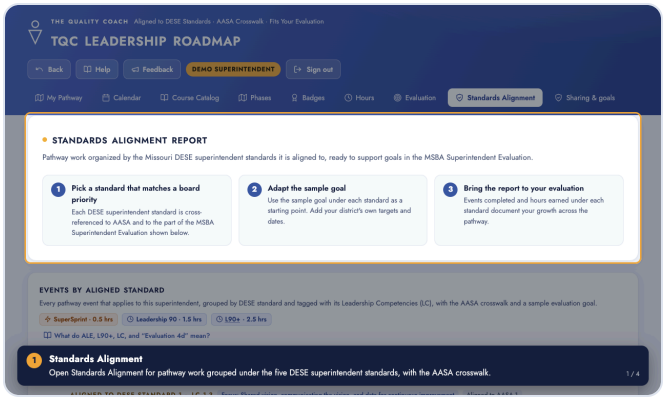

Session badges: Session badges show aligned DESE and AASA standards and earned hours.

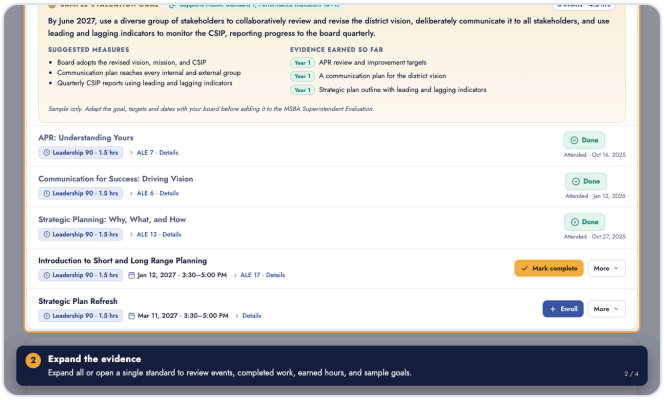

Use Standards Alignment and print your report

1. Open **Standards Alignment**. The report groups pathway events and earned hours under the five DESE superintendent standards, with an AASA crosswalk.
2. Use **Expand all**, **Collapse all**, or click one standard to see its events, evidence, and sample goal. Evaluation connections appear for roles allowed to see them.
3. Choose **Print report** to print or save the report as a PDF. Adapt sample goals and measures with your board; they are starting points.
4. Choose the board's evaluation tool on the **Evaluation** tab. These alignments support evaluation; badges are professional learning recognition, not a Missouri educator credential.

► Video: Using Standards Alignment (23 sec) · https://jwillisdunklin.github.io/tqc-roadmap-help/videos/standards-alignment.mp4

Standards Alignment: Open Standards Alignment for pathway work grouped under the five DESE superintendent standards, with the AASA crosswalk.

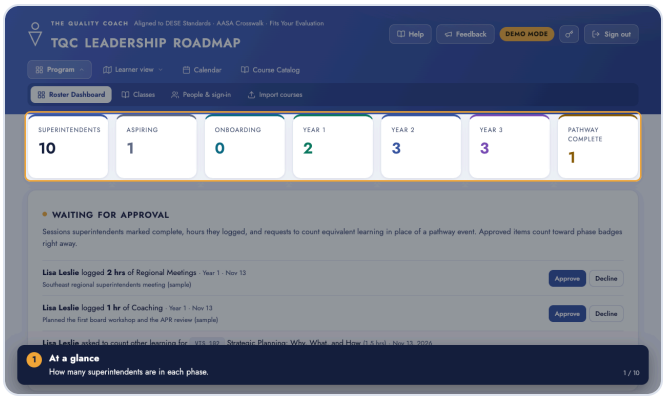

Expand the evidence: Expand all or open a single standard to review events, completed work, earned hours, and sample goals.

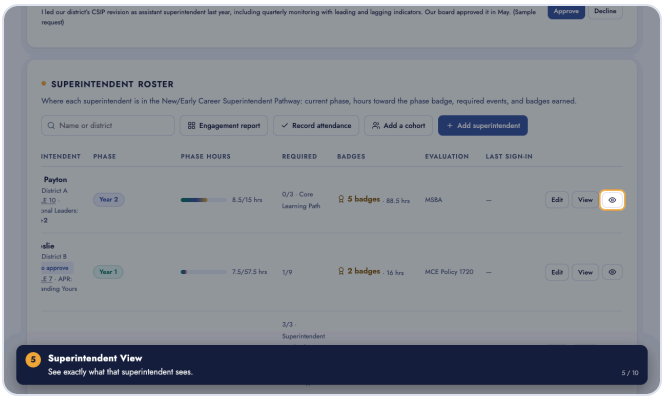

Follow the program (MASA staff)

1. The **Roster Dashboard** shows every superintendent's phase, hours, and badges, read-only.
2. You never see coaching notes, reflections, or evaluation details.

► Video: [Administrators: roster and approvals](#) (53 sec) · https://jwillisdunklin.github.io/tqc-roadmap-help/videos/admin-roster.mp4

At a glance: How many superintendents are in each phase.

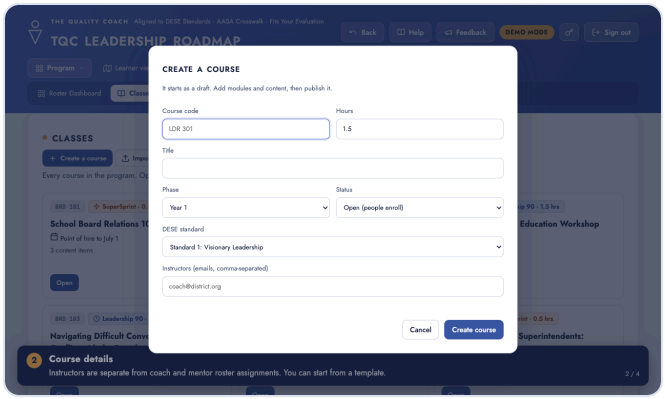

Superintendent View: See exactly what that superintendent sees.

For program administrators

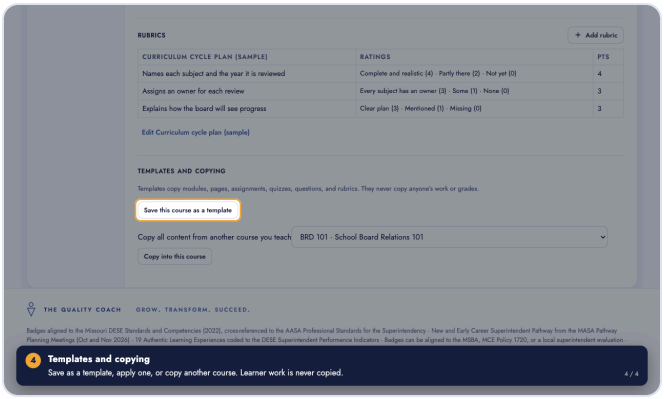

Templates, copying, and duplicating

1. In **Settings**, **Save this course as a template** copies its modules, pages, assignments, quizzes, questions, and rubrics (never anyone's work or grades).
2. Add a template to another course, start a new course from one, or **Copy all content from another course you teach**. Instructors see templates saved from courses they teach; administrators see them all.
3. In **Modules**, **Duplicate** copies one module here or into another course you teach.

► Video: [Administrators: courses and instructors](#) (23 sec) · https://jwillisdunklin.github.io/tqc-roadmap-help/videos/course-admin.mp4

Course details: Instructors are separate from coach and mentor roster assignments. You can start from a template.

Templates and copying: Save as a template, apply one, or copy another course. Learner work is never copied.

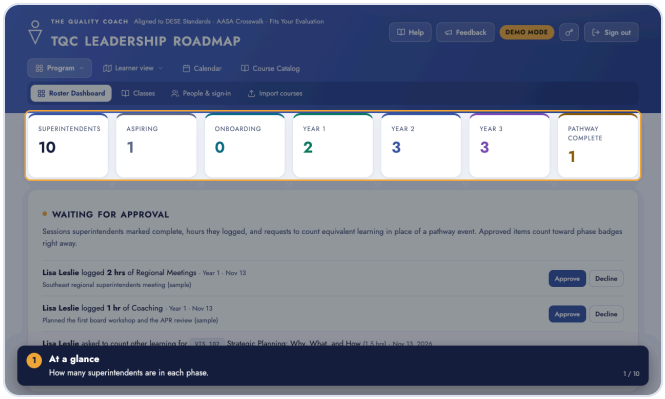

For board presidents: the shared report

1. A board president is added by a program administrator and signs in like everyone else (**First time here, or forgot your password?**).
2. They see one page: the superintendent's completed learning by DESE standard, with any goals the superintendent chose to share. Click **Print report** to print it.
3. They see nothing until the superintendent shares, and never notes, hours, pending work, or evaluation settings.

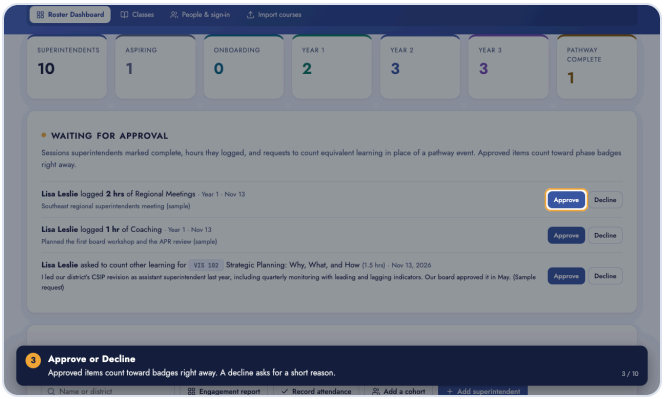

Use the roster

1. **Roster Dashboard** shows everyone by phase, hours toward the badge, required events, and badges (for example **5 badges · 88.5 hrs**: badges earned and total approved hours). The **Evaluation** column shows only for people allowed to see evaluations.
2. Search by name or district. Click **View** to open someone's pathway (it opens under **Learner view**), or the eye to see it exactly as they do (**Superintendent View**).
3. On a phone, each superintendent is a card with the same details and buttons.

► Video: Administrators: roster and approvals (53 sec) · https://jwillisdunklin.github.io/tqc-roadmap-help/videos/admin-roster.mp4

At a glance: How many superintendents are in each phase.

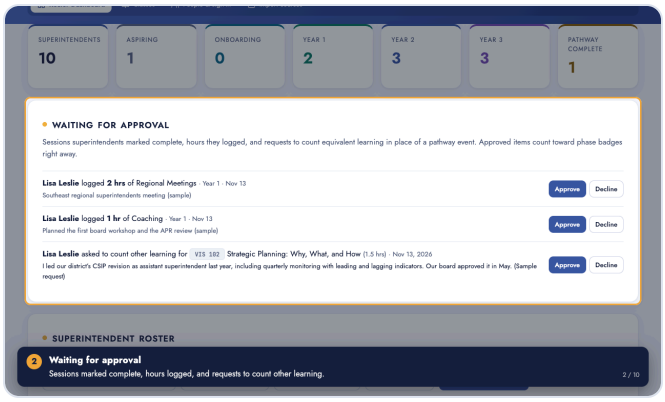

Approve or Decline: Approved items count toward badges right away. A decline asks for a short reason.

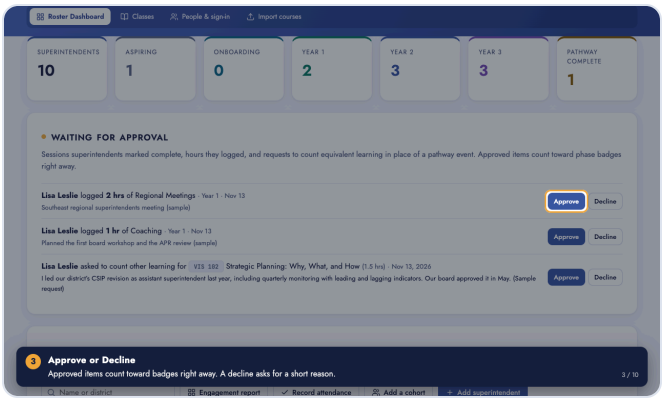

Approve sessions, hours, and substitutions

1. **Waiting for approval** (top of the roster) lists sessions marked complete, hours logged, and requests to count other learning (substitutions).
2. Click **Approve** or **Decline** (a decline asks for a short reason the superintendent will see). Approved items count right away.

► Video: Administrators: roster and approvals (53 sec) · https://jwillisdunklin.github.io/tqc-roadmap-help/videos/admin-roster.mp4

Waiting for approval: Sessions marked complete, hours logged, and requests to count other learning.

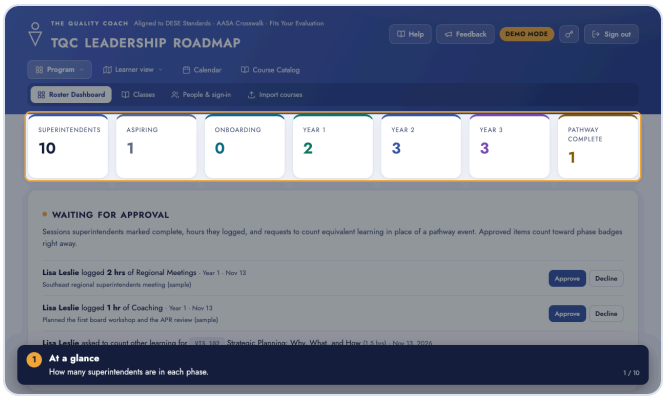

Approve or Decline: Approved items count toward badges right away. A decline asks for a short reason.

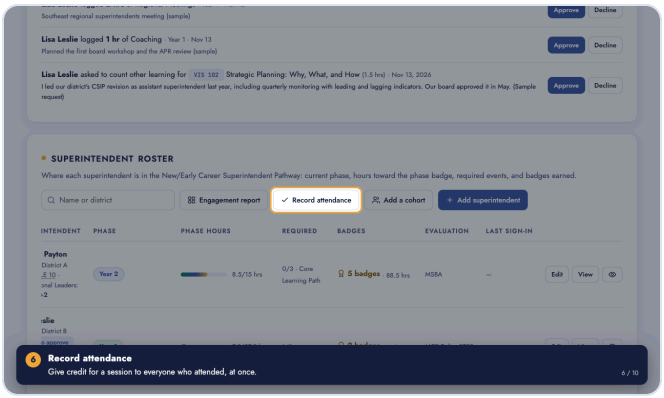

Record attendance for a session

1. On the roster, click **Record attendance**, pick the session and date, check who attended, and click **Save attendance**.
2. Everyone checked gets credit at once. To credit one person, open their pathway and click **Grant credit** on the event.

► Video: Administrators: roster and approvals (53 sec) · https://jwillisdunklin.github.io/tqc-roadmap-help/videos/admin-roster.mp4

At a glance: How many superintendents are in each phase.

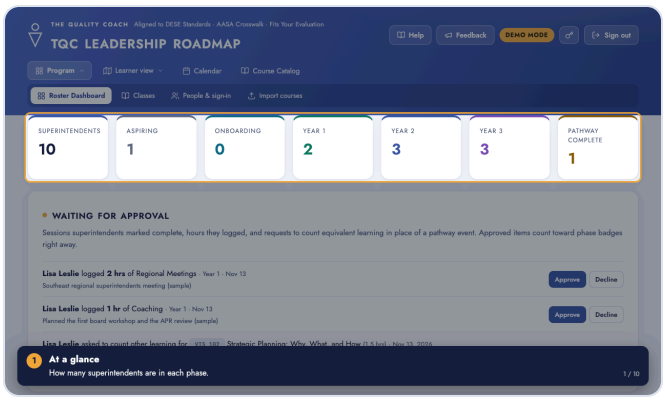

Record attendance: Give credit for a session to everyone who attended, at once.

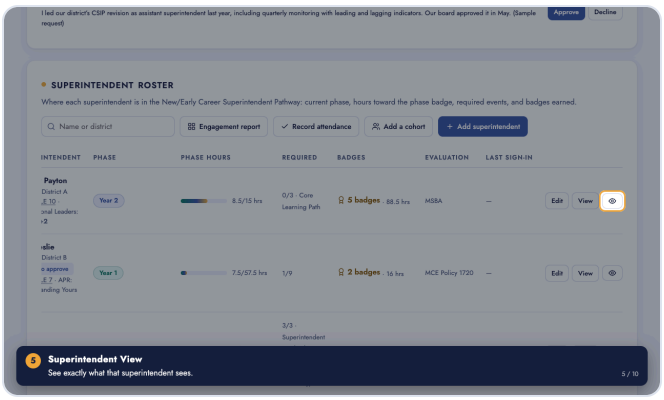

Add a superintendent

1. Click **Add superintendent**, fill in name, email, district, dates, and their coach and mentor (with emails).
2. Leave **Email a link to set a password** checked so they can sign in.

► Video: Administrators: roster and approvals (53 sec) · https://jwillisdunklin.github.io/tqc-roadmap-help/videos/admin-roster.mp4

At a glance: How many superintendents are in each phase.

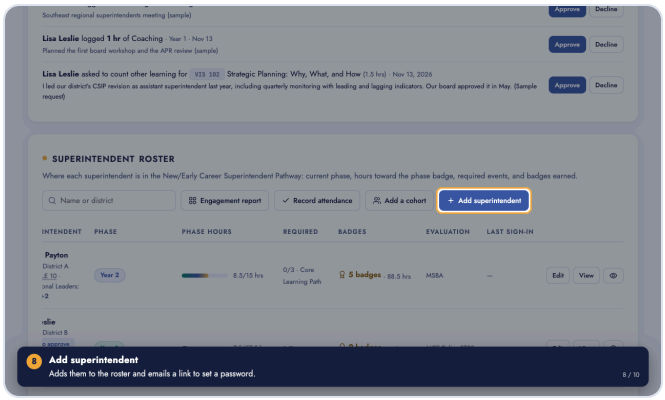

Superintendent View: See exactly what that superintendent sees.

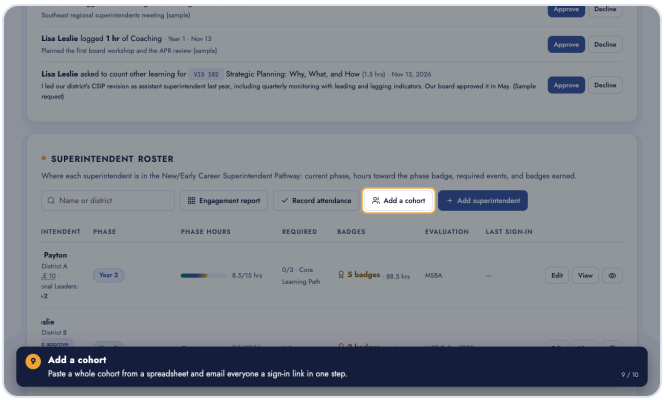

Add a cohort (for example, the spring hires)

1. On the roster, click **Add a cohort**. Paste one person per line from a spreadsheet: **Name, Email, District**, and optionally Year 1 start, coach email, and mentor email (a header row works too).
2. Set **Year 1 starts** for lines without one, and leave **Email each person a link** checked so they can sign in. People already on the roster are skipped and listed.

► Video: Administrators: roster and approvals (53 sec) · https://jwillisdunklin.github.io/tqc-roadmap-help/videos/admin-roster.mp4

Add superintendent: Adds them to the roster and emails a link to set a password.

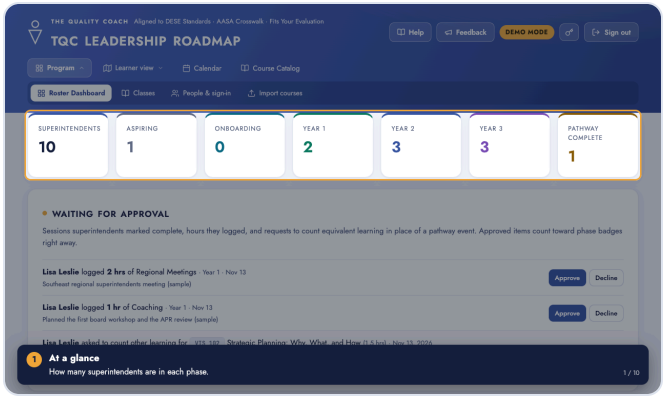

Add a cohort: Paste a whole cohort from a spreadsheet and email everyone a sign-in link in one step.

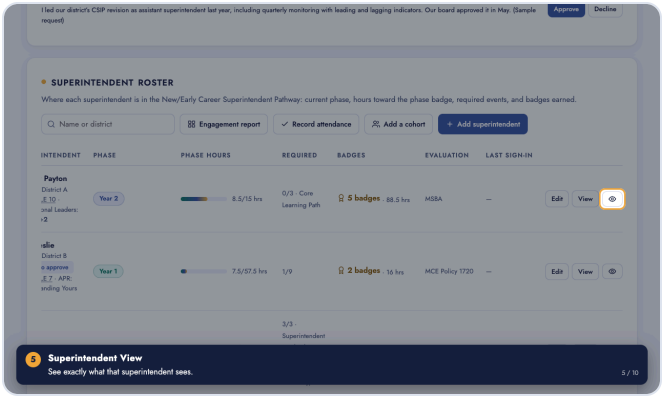

Engagement report and participant feedback

1. On the roster, click **Engagement report**: last sign-in, sign-ins in the last 30 days, events done, course pages opened, work turned in, posts, hours entries, and last activity for each superintendent. Counts only, never anyone's work or notes.
2. Below it is the feedback people sent from the **Feedback** button at the top. Click **Download CSV** to bring the report into a spreadsheet for the post-pilot review.

► Video: Administrators: roster and approvals (53 sec) · https://jwillisdunklin.github.io/tqc-roadmap-help/videos/admin-roster.mp4

At a glance: How many superintendents are in each phase.

Superintendent View: See exactly what that superintendent sees.

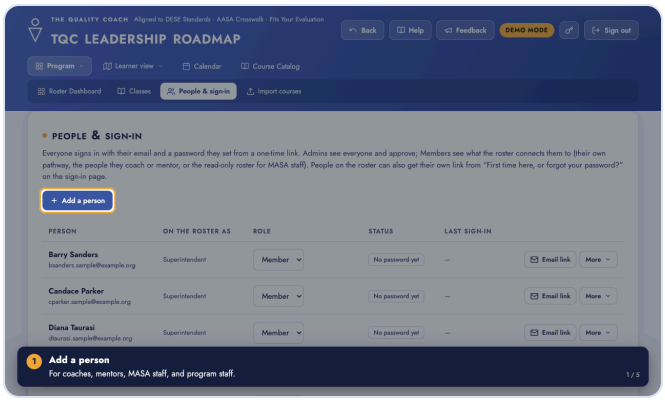

See which performance indicators the program covers

1. Open **Standards Alignment**. Program staff see **Evaluation indicator coverage**: each of the 23 performance indicators, the ALEs and sessions aligned to it, the series badges that include them, and other requirements.
2. All 23 indicators are covered in the current plan: 4b by the onboarding listening tours (ALE 8), 2c by Instructional Leaders: Cycles (ALE 10), 3e by Onboarding, Orienting, and Retaining (ALE 14), 4a by Maintaining Facilities (ALE 16), and 5a by the yearly regional meetings and conference. The Superintendent Leadership Academy carries the same indicators as the eight ALEs it replaces. An indicator marked **Gap** would need a session or requirement.
3. Change a session's indicators in the **Eval Indicators** column on the Courses tab.

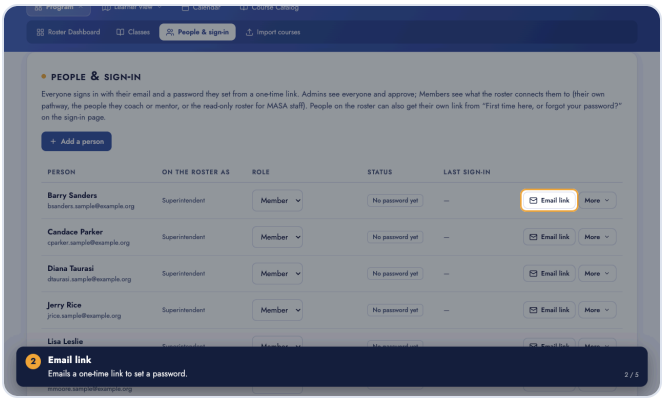

Manage sign-ins (People & sign-in)

1. Open **People & sign-in**. **Add a person** for coaches, mentors, MASA staff, or staff.
2. **Email link** sends a one-time link to set a password. The **More** menu on each row has **Edit name**, **Copy link** (a link to send yourself), and **Turn off**.
3. Change someone between **Member** and **Admin**, or **More › Turn off** an account (they are signed out right away).
4. **On the roster without an account** lists people named on the sheets who haven't signed in yet.

► Video: Administrators: people and sign-in (28 sec) · https://jwillisdunklin.github.io/tqc-roadmap-help/videos/admin-people.mp4

Add a person: For coaches, mentors, MASA staff, and program staff.

Email link: Emails a one-time link to set a password.

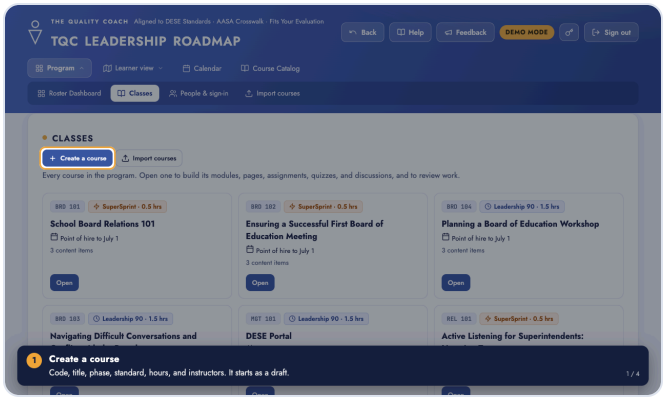

Edit a superintendent's profile and assignments

1. On the roster, click **Edit** (or **Edit profile and assignments** on their pathway).
2. Change their name, district, dates, coach, mentor, or board president (name and email), or uncheck **Active** to take them off the roster.
3. In **People & sign-in**, **More › Edit name** fixes how anyone's name appears everywhere.

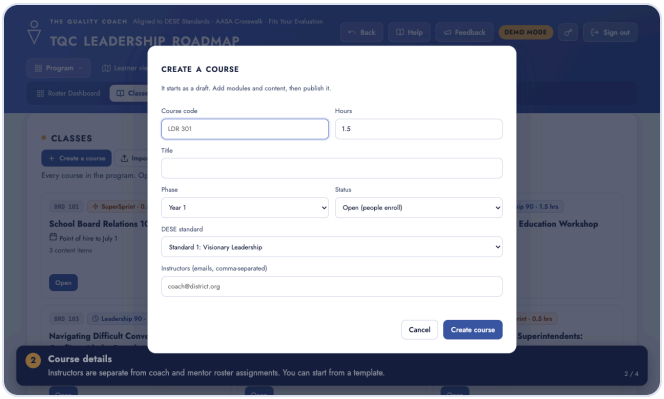

Create a course and assign instructors

1. Open the **Classes** tab and click **Create a course**: code (like LDR 301), title, phase, status, DESE standard, hours, and instructors' emails. You can start from a template. It starts as a draft.
2. To change instructors later, open the course, then **Settings › Edit class details and instructors**. Instructor assignments are separate from coach and mentor roster assignments; any coach or mentor can also be an instructor.
3. Instructors get a sign-in link from "First time here, or forgot your password?". Administrators can open, edit, and grade every course.

► Video: [Administrators: courses and instructors](#) (23 sec) · https://jwillisdunklin.github.io/tqc-roadmap-help/videos/course-admin.mp4

Create a course: Code, title, phase, standard, hours, and instructors. It starts as a draft.

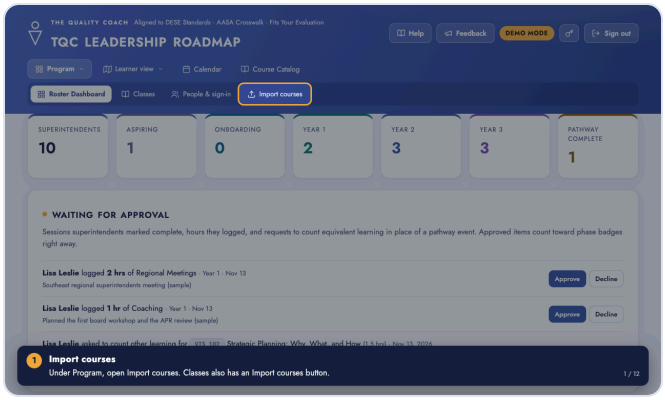

Course details: Instructors are separate from coach and mentor roster assignments. You can start from a template.

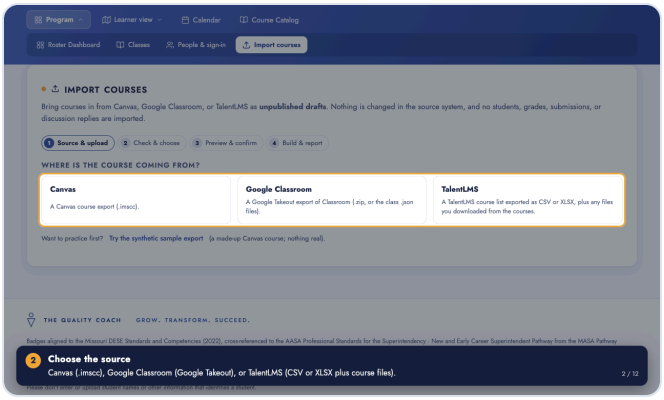

Import courses from Canvas, Google Classroom, or TalentLMS

1. Open **Program › Import courses** (or **Classes**, then **Import courses**; administrators only). Four stages run across the top: **Source & upload**, **Check & choose**, **Preview & confirm**, and **Build & report**.
2. **Source & upload**: choose the source, then upload its export. To practice, click **Try the synthetic sample export** (a made-up Canvas course).
3. **Check & choose** is one screen: what the export holds (courses, modules, items, quiz questions, announcements, files), then for each course a checkbox, its Roadmap code (like LDR 301), a **Description** box, and its warnings. **Items to bring in** lists each item. Phase, hours, DESE standard, competencies, and instructors stay blank unless you fill them in: nothing is guessed, and source roles never become Roadmap access.
4. An export with more than 20 courses (a whole TalentLMS report, say) starts with **nothing ticked**. Type in **Find courses by name, code, or category** to narrow the list (each course shows its source code and category, so copies with the same name can be told apart), tick the ones you want (up to 20 per import; the count turns red past 20), and use **Untick all** to start over. Import the rest in another round.
5. A course marked **Looks like** a Roadmap code (for example **Looks like BRD 101**) has the same topic as a course already in the Roadmap, ignoring labels like SuperSprint and numbers like 101. Importing it still makes a **separate draft**; it never adds to or replaces that course. Untick it if the Roadmap course is already what you want.
6. **Preview & confirm**: check the drafts, then click **Import as drafts**. Progress shows files uploaded and steps done; you can **Cancel**, and a stopped import can **Retry** or **Resume** without repeating finished parts.
7. The report links to each draft and lists what needs attention. Every course, module, item, and announcement starts **unpublished**, and nobody is emailed. No students, grades, submissions, discussion replies, or completion histories are imported.

► Video: Administrators: import courses (1 min 3 sec) · https://jwillisdunklin.github.io/tqc-roadmap-help/videos/admin-import.mp4

Import courses: Under Program, open Import courses. Classes also has an Import courses button.

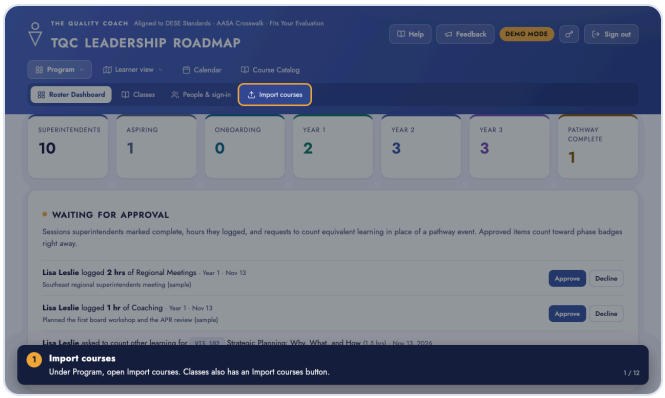

Choose the source: Canvas (.imscc), Google Classroom (Google Takeout), or TalentLMS (CSV or XLSX plus course files).

Importing from Canvas (.imscc)

1. In Canvas: open the course → **Settings** → **Export Course Content** → **Course** → **Create Export**, then download the **.imscc** file (up to 100 MB here).
2. Comes across: course title, description, syllabus, front page (as the Home welcome), modules in order, pages, files linked from pages and modules (up to 10 MB each; PDF, Word, PowerPoint, Excel, text, images), assignments (points, submission types, rubrics), discussions, announcements (unpublished), https links, and completion requirements.
3. Classic Quizzes: multiple choice, true/false, short answer, and essay questions come across with their answer keys (only editors ever see them). Matching, multiple answers, numerical, fill-in-multiple-blanks, formula, file-upload, and question-bank questions are listed for you to rebuild.
4. Not supported and listed in the report: external tools (LTI), New Quizzes, peer reviews, recorded media comments, unlock dates and prerequisites, and embeds other than YouTube, Vimeo, Loom, Google Drive, and Google Slides. Images inside pages become links to the image file.
5. Links between pages, assignments, and files are pointed at the imported copies. A link to something not in the export keeps its text without the link and is listed.

► Video: [Administrators: import courses](#) (1 min 3 sec) · https://jwillisdunklin.github.io/tqc-roadmap-help/videos/admin-import.mp4

Import courses: Under Program, open Import courses. Classes also has an Import courses button.

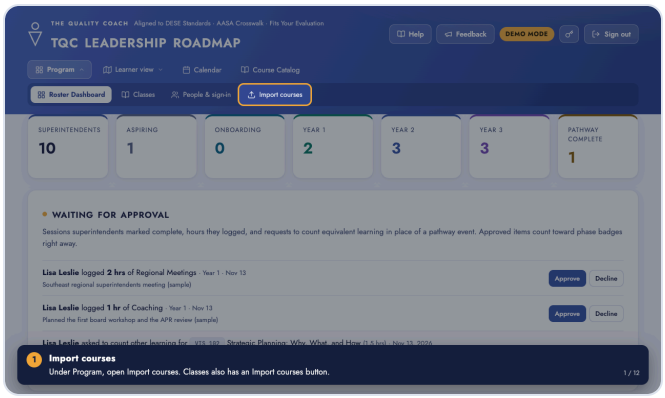

Import report: Open each draft, fix what needs attention, or remove the imported drafts.

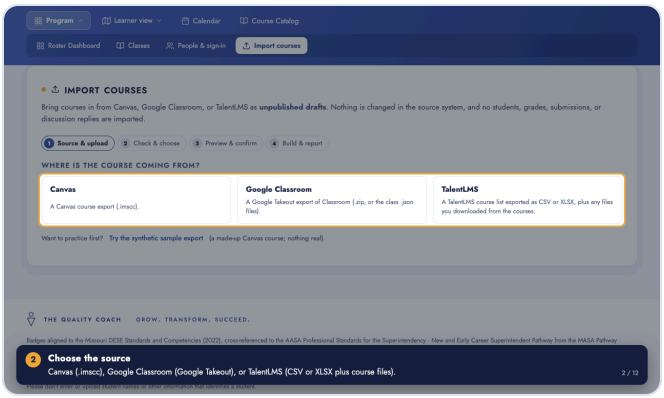

Importing from Google Classroom (Google Takeout)

1. Signed in as the teacher, go to **takeout.google.com**, choose **Deselect all**, check only **Classroom**, create the export, and download the .zip. Upload the .zip (or the class .json files inside Takeout/Classroom).
2. Each class becomes a course, topics become modules, materials become pages, assignments stay assignments (points kept; due dates aren't), and announcements come across unpublished. Short-answer questions become written-response assignments; multiple-choice questions have no answer key in Classroom, so they become written responses listing the choices.
3. Google Drive attachments are listed by name but aren't in a Classroom Takeout. For each one, download the file from Drive and click **Add the downloaded file**, or check **Keep the Drive link instead** (viewers then need access in Drive; the import never changes Drive sharing). Files you add to the same Takeout (Drive) are matched by name.
4. Google Forms quizzes, practice sets, video questions, and add-on activities are not converted; they are listed so you can rebuild them (a Form can be kept as a link). Student submissions and comments in the export are never imported.
5. A direct "Connect Google Classroom" option needs Google Cloud setup and approval first; see the import guide (docs/course-import.md).

► Video: [Administrators: import courses](#) (1 min 3 sec) · https://jwillisdunklin.github.io/tqc-roadmap-help/videos/admin-import.mp4

Import courses: Under Program, open Import courses. Classes also has an Import courses button.

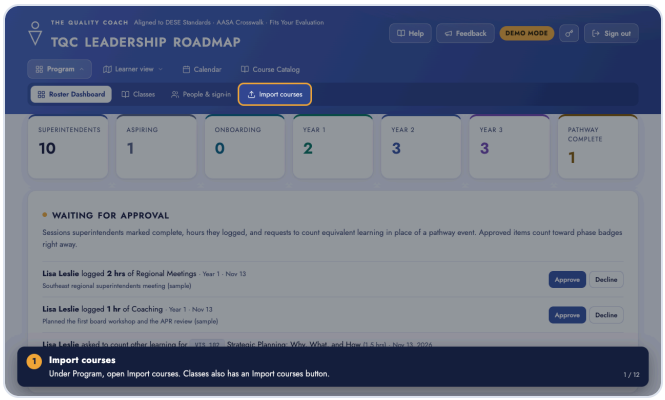

Choose the source: Canvas (.imscc), Google Classroom (Google Takeout), or TalentLMS (CSV or XLSX plus course files).

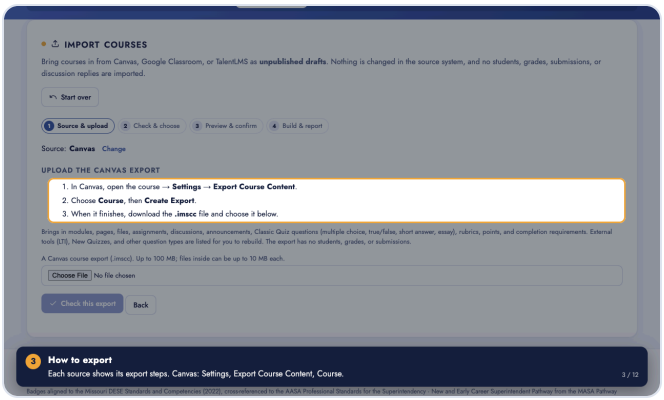

Importing from TalentLMS (CSV/XLSX and course files)

1. In TalentLMS, open **Reports → Courses** and click **Save as CSV** (the icon below the table). Upload that file. An XLSX course list works too.
2. The course name, code, and category come across; empty cells (shown as "-" in TalentLMS) stay blank, and learner counts are listed as unused and never imported. The course report has **no description**, so copy it from the course page in TalentLMS and paste it into the **Description** box.
3. TalentLMS doesn't export units built in its editor (content, TalentCraft, tests, surveys, assignments), so those must be rebuilt. PDFs and slides inside **document units** aren't course files in TalentLMS: open each unit and download its file. Course videos are usually over 10 MB, so add them as a YouTube, Vimeo, Loom, or Drive link instead.
4. In the review step, use **Course files and links** to add each course's PDFs, slides, and documents (up to 10 MB each) and links to videos, and name the module each goes in.
5. TalentLibrary courses are licensed inside TalentLMS and can't be downloaded or transferred. SCORM, xAPI, and cmi5 packages are recognized but not played or tracked here, so they are never added as working content.

► Video: Administrators: import courses (1 min 3 sec) · https://jwillisdunklin.github.io/tqc-roadmap-help/videos/admin-import.mp4

Import courses: Under Program, open Import courses. Classes also has an Import courses button.

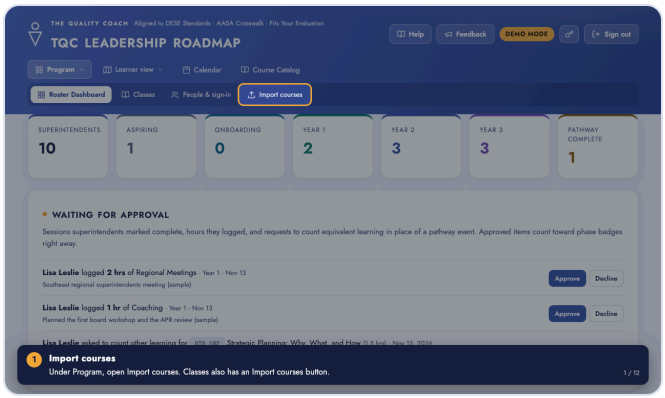

How to export: Each source shows its export steps. Canvas: Settings, Export Course Content, Course.

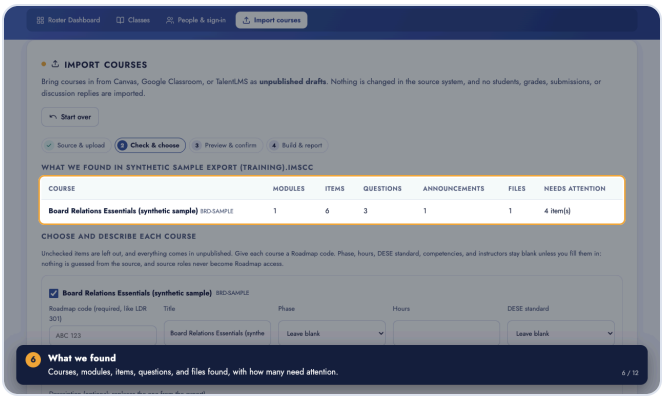

Fix import warnings and undo an import

1. **Not imported — rebuild** means the item couldn't come across (an external tool, a Form, an unsupported question type). **Needs attention** means it came across with a gap (a missing file, a removed embed, a broken link). **Note** is for your information.
2. Items whose file didn't come across say so in their details: open the item, click **Edit**, and upload the file, or paste a link. Rebuild unsupported questions in the quiz's question bank.
3. Errors you may see: an unsafe file path, a file that "looks like a ZIP bomb", more than 3,000 files, over 300 MB expanded, over 100 MB uploaded, or over 8 MB of pages. Export a smaller course or split it.
4. **Remove imported drafts** (on the report, or from **Earlier imports**) removes only what that import created and nobody changed since. Edited items, courses with added content or learner activity, and files still in use are kept and listed. Removed files go to the Drive trash.
5. Importing the same course twice asks first and always makes a new draft with a new code; nothing is overwritten. **Looks like** a Roadmap code means a course with the same topic is already in the Roadmap; the import still makes a separate draft.

Things you change on the spreadsheet

1. **Courses**: add a session's **Session Date**, **Session Time**, and **Link** (meeting or materials, https); dated sessions appear on the public PD calendar. **Modality** says virtual or in person; **ALE**, **Eval Indicators**, and **Count Required** (yearly meetings) are there too. Add standalone sessions with Option CORE and Status Elected.
2. **Phases** and **Options**: hours, the Years 2 and 3 path (Choice "span"), and the Core Learning Path's **Hours Required** (33).
3. **Settings**: BRAND_NAME, BRAND_LOGO_URL, BRAND_PRIMARY, and BRAND_ACCENT brand the public catalog and PD calendar.
4. **Course Materials**: each class's materials and assignment (Type Resource or Assignment).
5. **Settings**: PROGRAM_NAME (site name), DEMO_MODE, DEMO_LOGINS and DEMO_LOGIN_PASSWORD, COMPLETION_APPROVAL, SUPPORT_EMAIL, TERMS_URL and PRIVACY_URL.
6. Sheet menu **Growth Roadmap**: add a sign-in account, back up the spreadsheet, and mark courses complete. These menu items run only for the spreadsheet's owner.
7. **Health check**: add **?page=health** to the end of the web app link to see whether everything is working (tabs, administrators, catalog, last backup, scheduled jobs, Drive folders, emails left today). It needs no sign-in and shows OK / Check / Problem only, never names or data.
